INTRODUCTION

Dear students

After a great effort at your service, we have put this great effort at your hands. It is the effort of a large group of experts in setting exams, who have been trained to design questions and prepare exams for many years in accordance with modern foundations and standards and the examination paper matrix according to its latest specifications.

We took into account the Indicators and learning outcomes at all cognitive levels and the reuse of scientific material according to the different levels of difficulty and questions that include one mental operation and more than one mental operation according to the graduation of difficulty levels in the questions.

Al Gomhuria Educational, with its question bank and final revision, is a prescription for excellence that you won't find in any other educational means. It is far from the false complexity used by many teachers and many educational means to intimidate the student... Honestly, all exams are based on the educational rules and the question formula that is closest to the exam.

The Exam setter does not challenge the student or the teacher; they are parents before they are teachers after all. So, educational means that use very difficult questions which are not based on foundations and learning outcomes are just a teacher's imagination.

Therefore, understand the question, then use what you have studied and retrieve your information.

There are three ways to answer the question as follows:

1 - Answer the completion without looking at the choices, then approach the answer according to the options.

2- Exclude illogical or wrong answers.

3 - Try the four options and choose the one that is consistent with what you've studied.

Finally, be confident of yourself and your information and do not be hesitant ..... start with the easy question and you will end up with the most difficult one.

Be careful of previous years' questions, as the exam setter may use them in a new way that includes a different word or a different learning outcome, so don't be hasty.

Dear students, we have honestly put at your hands a magical recipe that is the closest to the final exam and according to the modern system of high school... with us, studying has become fun.

Based on Units: 1-2-3

Choose the correct answer from a, b, c or d: (1 mark each)

1. **The company _____ strict protocols to prevent employees from finding ways to circumvent the system.**
   a) complemented b) replied c) complimented d) implemented

2. **The university received a generous contribution from a former graduate to support new students. The word "contribution" here means _____**
   a) donation b) connection c) distribution d) share

3. **He declined the offer politely. The word "declined" is a synonym for _____**
   a) increased b) accepted c) refused d) reduced

4. **After months of hard work, she finally received the recognition she deserved. The phrase "received the recognition" means _____**
   a) received criticism b) earned respect and praise
   c) resigned from the position d) made a professional mistake

5. **After experiencing persistent chest pain, I visited a specialized cardiac _____ for a full evaluation.**
   a) clinic b) studio c) avenue d) setting

6. **The healthcare system struggled to treat every casualty after the explosion. The word "casualty" means _____**
   a) convict b) causality c) guest d) victim

7. **_____ means more powerful, important, or noticeable than others.**
   a) Dominoes b) Dominant c) Domaln d) Trivial

8. **_____ dinner we had yesterday at the new restaurant was delicious.**
   a) A b) An c) The d) (No article)

9. **Which of the following is the most essential feature of an argumentative essay?**
   a) Narrating a personal anecdote without a clear stance b) Presenting a strong thesis statement supported by evidence
   c) Constructing lengthy sentences without examples d) Listing facts from the internet without analysis

CamScanner

10 **To write an effective persuasive text about a school recycling program, which strategy is most impactful?**

- Presenting a clear opinion supported by logical reasoning and facts
- Writing long paragraphs without a clear purpose
- Sharing unrelated personal stories
- Asking questions without offering solutions

11 **When writing a blog post about healthy eating, which element is essential for maximum engagement?**

- Using long blocks of text without subheadings
- A clear introduction, informative body, and practical tips
- Relying only on images without explanations
- Including unrelated stories

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Hospital 57357, formally known as the Children's Cancer Hospital Egypt (CCHE), stands as a monumental pillar of hope and medical innovation in the Middle East. Established primarily through grassroots donations, it represents one of the largest specialized centers globally dedicated to pediatric oncology. The hospital's philosophy is built on the principle of providing equity in healthcare, offering world-class medical services to all children free of charge, regardless of their background or socioeconomic status.

Beyond its clinical excellence, Hospital 57357 is a center for profound academic research and nursing education. It utilizes advanced technology, such as sophisticated diagnostic scopes and automated pharmacy systems, to maximize efficiency and reduce human error. The facility is designed with a unique psychological approach, featuring colorful, child-friendly environments intended to mitigate the fear and anxiety often associated with long-term treatment.

The success of the hospital relies heavily on the hospitality and generosity of the community, as well as the tireless efforts of medical professionals who shoulder the burden of fighting complex diseases. By integrating innovation with compassionate care, 57357 continues to improve survival rates and remains a tangible example of what collective human courage and scientific dedication can achieve.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the text?**

- The history of grassroots donations in the Middle East.
- The role of 57357 as a leading, equitable center for pediatric oncology.
- The technical specifications of automated pharmacy systems.
- The geographical location of Children's Cancer Hospital Egypt.

CamScanner

13 **Which of the following can be inferred from the second paragraph?**

- The hospital focuses solely on treatment rather than academic research.
- Technology is used to replace doctors entirely to save money.
- The hospital's design acknowledges the emotional impact of illness on children.
- Automation has made the nursing staff less important in the facility.

14 **What is the best title for this passage?**

- The Financial Challenges of Modern Medicine
- A Monument of Hope: Innovation and Equity at 57357
- The History of Pediatric Nursing in Egypt
- Global Statistics on Childhood Cancer

15 **The word "<u>profound</u>" is closest in meaning to:**

- shallow and brief
- loud and disruptive
- ancient and historical
- deep and significant

16 **Based on the text, what can be deduced about the hospital's funding?**

- It relies on the collective generosity and donations of the public .
- It is primarily funded by international government.
- It charges high fees to wealthy patients to cover the cost of others.
- It is a for-profit institution owned by medical innovators.

17 **Which of the following statements is CORRECT according to the text?**

- Hospital 57357 provides world-class services only to Egyptian citizens.
- The hospital uses child-friendly environments to increase patient anxiety.
- 57357 is one of the largest specialized pediatric oncology centers globally.
- The facility avoids using advanced technology to maintain a "human touch."

18 **Which of the following statements is INCORRECT according to the text?**

- The hospital integrates innovation with compassionate care.
- Survival rates have remained stagnant despite the hospital's efforts.
- Equity in healthcare is a founding principle of the institution.
- The medical staff takes on the heavy responsibility of fighting complex diseases.

19 **In the phrase "it represents one of the largest specialized centers," the word "it" refers to: .....**

- (a) Pediatric oncology
- (b) Middle East
- (c) Hospital 57357
- (d) Grassroots donations

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

The future of work is rapidly evolving due to advancements in automation and artificial intelligence (AI). Automation refers to the use of technology to perform tasks that were previously done by humans. Industries such as manufacturing, transportation, and healthcare are increasingly relying on machines and robots that can carry out repetitive tasks more efficiently than people. This trend is expected to continue, with many jobs becoming automated in the coming decades.

One major impact of automation is its effect on employment. While it can increase productivity and reduce costs for businesses, it also raises concerns about job displacement. Many low-skilled jobs, such as assembly line work and data entry, are at risk of being replaced by machines. However, experts believe that automation may also create new job opportunities in fields like technology, robotics, and AI, which require different skills.

As a result, the demand for skilled workers who can design, operate, and maintain automated systems is expected to grow. Automation may also improve working conditions by reducing dangerous and physically demanding tasks. However, challenges remain, including the gap between skilled and unskilled workers. Overall, automation presents both opportunities and challenges, making preparation essential for the future.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

- (a) Automation will create opportunities but requires new skills
- (b) Automation is threatening all jobs
- (c) Automation only affects manufacturing
- (d) The future of work reduces productivity

21 **The word "displacement" is closest in meaning to .....**

- (a) movement
- (b) replacement
- (c) adaptation
- (d) growth

22 **Which statement is TRUE according to the text?**

- (a) Automation will cause job losses in all sectors
- (b) Automation will not create new jobs
- (c) Automation can improve working conditions by reducing dangerous tasks
- (d) Only skilled workers are affected

CamScanner

23 Which statement is UNTRUE according to the text?

- Automation can reduce business costs
- Automation will completely eliminate human workers
- Automation may create jobs in technology fields
- Training is necessary to adapt

24 What does the term "automation" refer to?

- Humans performing tasks manually
- Improving worker performance
- Removing all machines from work
- Using technology to perform tasks instead of humans

25 Which word in the text refers to machines performing repetitive tasks?

- adaptation
- productivity
- automation
- revolution

26 How will worker demand change in the future?

- There will be greater demand for skilled workers
- Skilled workers will not be needed
- All jobs will disappear
- Only low-skilled jobs will remain

27 What is one benefit of automation mentioned in the text?

- Lower productivity
- Job loss everywhere
- Reduced physical and dangerous work
- Increased insecurity for all workers

11 **Narrative writing is primarily used to _____.**

- a) present facts and information only
- b) tell a story, either real or imagined, following a sequence of events
- c) persuade someone to take action
- d) write instructions or directions

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Amira had always been an active member of her school's drama club. She was thrilled when auditions were announced for the lead role in the upcoming play. Confident in her abilities, Amira prepared thoroughly, memorizing her lines and perfecting her performance. However, on the day of auditions, she noticed that only students who were part of a specific social group were being chosen for lead roles. The director, Ms. Reynolds, seemed to favor students from well-known and affluent families; often disregarding talent and hard work.

Amira's performance was exceptional. She delivered her lines with emotion and precision, earning applause from her peers. Despite this, the lead role was given to Lila, a girl who was part of Ms. Reynolds' favorite group but lacked the same level of skill. Amira felt disappointed, realizing that bias had influenced the decision. She shared her concerns with her friends, and together they approached the school administration. After a review, the administration recognized the unfairness of the selection process and decided to implement a more transparent and merit-based system for future auditions. Amira's story inspired change. The next audition cycle was fair, and students were chosen based on talent and effort. Amira finally got her chance to shine, proving that fairness and merit should always outweigh bias.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the story?**

- a) How to prepare for an audition
- b) The effects of bias on fairness
- c) The benefits of joining a drama club
- d) The importance of wealth in success

13 **The word "affluent" in the story means _____**

- a) relevant
- b) qualified
- c) strong
- d) wealthy

CamScanner

14 **Which of the following is TRUE according to the story?**

- a. Ms. Reynolds chose Amira for the lead role.
- b. The school ignored Amira's complaint.
- c. The selection process became fairer after Amira's actions.
- d. Lila had better acting skills than Amira.

15 **Which of the following is UNTRUE according to the story?**

- a. Amira's performance was well-received.
- b. Ms. Reynolds was fair in her selections.
- c. The school administration took action.
- d. A new system was implemented for auditions.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Urbanization refers to the process of people moving from rural areas to cities in search of better opportunities. This process has accelerated over the last few decades and has led to significant changes in rural communities. While urbanization brings economic growth and improved living standards in cities, it can have both positive and negative effects on rural areas.

On the positive side, urbanization often leads to better infrastructure, improved healthcare, and greater access to education in rural areas. This is because urban areas tend to have more resources, and as they grow, there is often increased investment in nearby rural regions. Rural communities can benefit from better roads, schools, and healthcare facilities due to their proximity to urban centers.

However, the impact of urbanization on rural communities can also be negative. Many young people migrate to cities in search of jobs, leaving behind an aging population. This leads to a decline in the labor force and can result in reduced agricultural production, which is the main source of income in many rural areas. Additionally, urbanization can lead to the loss of traditional cultural practices and lifestyles that are rooted in rural communities.

The environmental impact of urbanization can also be significant, as the conversion of rural land to urban spaces often leads to deforestation, loss of biodiversity, and increased pollution. Sustainable urban planning is essential to minimize these negative effects and ensure that rural communities can thrive even as cities continue to grow.

Choose the correct answer from a, b, c or d: (1 mark each)

20 What is the main idea of the text?

a) Urbanization benefits only cities
b) Urbanization has both positive and negative effects on rural communities
c) Rural communities are unaffected by urbanization
d) Urbanization only leads to environmental issues

21 Which of the following is closest in meaning to "accelerated"?

a) Increased in speed
b) Slowed down
c) Remained constant
d) Completely stopped

22 According to the text, which of the following statements is TRUE?

a) Urbanization always harms rural communities
b) Urbanization leads to a decline in agricultural production in rural areas
c) Rural areas always gain more job opportunities due to urbanization
d) Young people prefer to stay in rural areas

23 Which of the following statements is UNTRUE according to the text?

a) Urbanization improves infrastructure and access to education in rural areas
b) Migration to cities often leaves rural areas with an aging population
c) Urbanization has no effect on agricultural production in rural areas
d) Urbanization can lead to a loss of traditional lifestyles in rural communities

- The protection of natural habitats

25 **What is a potential benefit of urbanization for rural communities?**

- Decline in educational opportunities
- Increased investment in infrastructure and healthcare
- Complete loss of traditional cultures
- Reduced migration to cities

26 **According to the text, what effect does urbanization have on young people?**

- It encourages them to stay in rural areas
- It improves their agricultural skills
- It has no impact on their migration patterns
- It often leads them to migrate to cities in search of jobs

27 **What is necessary to minimize the negative effects of urbanization on rural communities, as mentioned in the text?**

- Ignoring rural areas in favor of cities
- Preventing people from migrating to cities
- Increasing the size of rural communities
- Sustainable urban planning

10 **What is the main characteristic of a mystery story?**

- a) It explains facts and information clearly
- b) It tells a story with a puzzling event, suspense, and clues to be solved
- c) It persuades the reader to take action
- d) It is a personal opinion about a book or movie

11 **Which of the following best describes a descriptive essay?**

- a) Writing that explains facts and provides evidence
- b) Writing that tells a story with a clear beginning, middle, and end
- c) Writing that describes a person, place, object, or experience using sensory details
- d) Writing that persuades the reader to take action

Reading Comprehension 1

Read the following passage, then choose the correct answer from a, b, c or d:

In a remarkable twist of fate, ancient artifacts dating back more than 9,000 years have been uncovered on a remote island—thanks to some very unexpected helpers: rabbits. Workers on the island were <u>astonished</u> when they noticed unusual stone tools scattered near a rabbit hole. At first, they assumed it was merely a coincidence, but a closer look revealed something far more extraordinary.

Intrigued by the discovery, the workers photographed the tools and sent the images to a museum for expert analysis. Archaeologists were both surprised and excited by what they saw. Further investigation led to an even more fascinating revelation: the rabbits, through their constant digging, had not only uncovered stone tools but had also brought ancient pottery fragments to the surface—items that had been buried deep underground for thousands of years.

These findings offered a valuable glimpse into the lives of early inhabitants of the Island, shedding light on their tools, daily activities, and craftsmanship. Without realizing it, the rabbits had exposed hidden traces of a long-lost civilization.

This extraordinary discovery has generated great excitement among archaeologists, as it provides a rare opportunity to study ancient history. It also serves as a reminder that nature, even in the form of small animals, can unexpectedly help uncover the secrets of the past.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

- a) Rabbits destroy historical sites
- b) Workers were building on the island
- c) Rabbits helped uncover ancient artifacts
- d) Museums collect old tools

13 **The word "<u>astonished</u>" is closest in meaning to .....**

- a) bored
- b) surprised
- c) angry
- d) confused

CamScanner

14 **What can we infer about the rabbits?**

- They were trained by archaeologists
- They unknowingly helped uncover history
- They intentionally searched for artifacts
- They avoided digging in the soil

15 **Which word in the passage refers to the people who lived on the island?**

- artifacts
- archaeologists
- fragments
- inhabitants

16 **Which statement is CORRECT?**

- The artifacts were found by machines
- The workers ignored the discovery
- The rabbits helped reveal buried items
- The museum refused to study the tools

17 **Which statement is INCORRECT?**

- The artifacts are over 9,000 years old
- The discovery had no importance
- The rabbits dug into the ground
- Archaeologists were excited

18 **What is the best title for the passage?**

- Life of Rabbits on an Island
- Rabbits Discover Ancient Treasure
- A Lost City Under the Sea
- How to Dig Holes

19 **What items were discovered?**

- coins and books
- clothes and food
- stone tools and pottery
- weapons only

Reading Comprehension 2

Read the following passage, then choose the correct answer from a, b, c or d:

The Grand Egyptian Museum, located near the Pyramids of Giza, is one of the largest archaeological museums in the world. It showcases the rich history of Egypt from ancient times to the modern era. The museum houses thousands of artifacts, including the complete collection of King Tutankhamun's treasures, which attract visitors from around the globe.

Designed with modern architecture, the museum combines state-of-the-art technology with Egypt's cultural heritage. Visitors can explore interactive exhibits, watch 3D presentations, and experience the stories of pharaohs, mummies, and ancient civilizations. The museum not only preserves history but also educates people about Egypt's contributions to art, science, and religion.

One of the museum's highlights is its massive Grand Hall, displaying colossal statues and ancient monuments in a way that reflects the grandeur of Egypt's past. Outdoor gardens and walking paths allow visitors to enjoy scenic views of the Pyramids while reflecting on the legacy of ancient Egyptians.

The Grand Egyptian Museum serves as a bridge between the past and the present, inviting people to journey through time and discover the remarkable achievements of one of the world's oldest civilizations. It is a symbol of pride for Egypt and a must-visit destination for anyone interested in history, archaeology, and culture.

- To tell a fictional story about someone
- To inform the reader about a person's life, experiences, and achievements
- To persuade the reader to buy a product
- To explain a scientific topic

Reading Comprehension 1

Read the following passage, then choose the correct answer from a, b, c or d:

Art has always been a powerful force in shaping cultures around the world. Through painting, sculpture, music, dance, and literature, people express their beliefs, values, and emotions. Different societies develop unique artistic styles that reflect their history, religion, and traditions. For example, traditional African masks reveal spiritual beliefs, while Japanese ukiyo-e prints show everyday life and nature. Art not only preserves cultural heritage but it also promotes understanding between communities. When people share and experience art from other cultures, they gain insight into new ways of thinking and living. Moreover, art can inspire social change by highlighting injustice, celebrating diversity, or encouraging creativity. Festivals, galleries, and performances bring people together, creating a sense of identity and belonging. Over time, art evolves as cultures interact, blending styles and ideas to form new expressions. In modern society, global communication has made it easier for art to cross borders, influencing fashion, music, film, and design worldwide. Ultimately, art is more than decoration or entertainment; it is a mirror of humanity, shaping cultures and connecting people across time and space. Its impact is lasting, as it continues to inspire, educate, and unite communities everywhere.

CamScanner

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main idea of the text?

a) Art is only for decoration and entertainment.
b) Art is a powerful force that shapes and reflects cultures worldwide
c) Art is only influenced by music and dance.
d) Art does not influence societies.

13 What can we infer from the text?

a) Experiencing art from other cultures helps people understand different lifestyles.
b) Art always stays the same and never changes.
c) Only famous artists can influence society.
d) Art has no connection to history.

14 In the text, the word "heritage" is closest in meaning to:

a) future
b) culture
c) legacy
d) tradition

15 In the sentence "Art not only preserves cultural heritage but it also promotes understanding between communities," what does "it" refer to?

a) Communities
b) Art
c) Heritage
d) Understanding

16 Which is the best title for the text?

a) Art and Its Effects on Cultures
b) Famous Artists Around the World
c) History of Museums
d) Modern Music and Dance

17 Which sentence best summarizes the text?

a) Art is not important in society, yet people can enjoy painting.
b) Art is only about music and festivals, where people celebrate events.
c) Only paintings can influence culture, yet poetry helps you relax.
d) Art reflects cultures, preserves traditions, inspires change, and connects people worldwide.

18 Which of the following statements is correct according to the text?

a) Art can inspire social change.
b) Art cannot cross cultural boundaries.
c) Festivals are unrelated to art.
d) Art has no impact on communities.

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Starting university is a life-changing experience for many students. Amina had always dreamed of joining a prestigious university, and finally, her first day arrived. Walking through the campus, she was amazed by the tall buildings, the busy library, and the vibrant student life. She quickly realized that university was very different from school. Classes were more challenging, and professors encouraged independent thinking. Amina joined several clubs, including the debate and drama societies, which helped her make new friends and develop her skills. She also learned the importance of time management, balancing studies, social activities, and part-time work. Sometimes, the workload felt overwhelming, but she discovered that seeking help from classmates or attending workshops made a big difference. University life was not just about academics; it was also about growing as a person, facing challenges, and learning responsibility. By the end of her first year, Amina felt more confident, independent, and ready to take on new opportunities. She realized that the friendships, experiences, and knowledge gained at university would stay with her for life, shaping her future in ways she had never imagined.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the story?**

- (a) University life is only about studying hard to get good grades.
- (b) University life helps students grow both academically and personally.
- (c) University life is easy and similar to school, yet you can make more friends.
- (d) Students should avoid social activities at university.

CamScanner

21 What can we infer about Amina from the story?

- She was nervous and unprepared for university life.
- She focused only on part-time work.
- She disliked her professors and classes.
- She actively participated in clubs and made new friends.

22 In the text, the word "prestigious" is closest in meaning to .....

famous and respected | small | ordinary | unknown

23 How does the writer describe "students' life" at the campus?

balancing | independent | vibrant | life-changing

24 Which is the best title for the story?

- A Day at the Library
- Growing and Learning at University
- Challenges of High School
- Amina's Vacation

25 Which sentence best summarizes the story?

- University life is exactly like school, but the compus is much larger.
- University life is boring and stressful, so you have to do your best.
- Amina only studied and never joined clubs. She hated being sociable.
- University life is challenging but provides opportunities to learn, make friends, and grow personally.

26 Which of the following statements is correct according to the story?

- Amina joined clubs to develop her skills and meet new people.
- University life has no challenges. It's the same as high school.
- Time management is not important; you can achieve goals without it.
- Professors discourage independent thinking. They don't believe in innovation.

CamScanner

27 **Which statement is incorrect according to the story?**

- a Amina felt more confident by the end of her first year.
- b University helps students grow academically and personally.
- c Amina avoided all social activities.
- d Seeking help from classmates was useful for Amina.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

One afternoon, as Lucy was walking home from school, she noticed a bright coin on the ground. It was unlike any coin she had ever seen before. Made of silver, it had detailed patterns carved on both sides. Curious, she picked it up and examined it closely. There was no date or country name on it—only a mysterious symbol.

When Lucy arrived home, she showed the coin to her grandfather, who had great knowledge of history and antiques. As soon as he saw it, he looked very surprised.

"This coin… it comes from an ancient civilization," he said. "I've heard about coins like this, but I believed they had disappeared long ago."

Lucy was very interested. "What does it represent?" she asked.

Her grandfather smiled and replied, "This coin was once a symbol of wisdom. People believed that whoever found it would gain great knowledge—but only if they were wise enough to use it properly."

Lucy thought carefully about what he said. That night, she placed the coin under her pillow. The next morning, when she woke up, she felt different—more alert and aware of everything around her. She then understood that the real power of the coin was not magic, but the ability to value the knowledge she already had and use it wisely.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main idea of the passage?

(a) Lucy found a valuable coin and became rich; it was a magic coin.
(b) A magical coin gave Lucy special powers. She used it for bad purposes.
(c) A mysterious coin helped Lucy understand the importance of using knowledge wisely
(d) Lucy's grandfather collects ancient coins to make his grandchildren rich.

13 What is the best title for the passage?

(a) The Lost Treasure
(b) The Coin of Wisdom
(c) Lucy's Grandfather
(d) A Strange Morning

CamScanner

14 **Which sentence best summarizes the first paragraph?**

- Lucy lost a coin on her way home
- Lucy ignored something on the ground
- Lucy bought a coin from a shop
- Lucy found a unique silver coin with a strange symbol

15 **What is the closest meaning of the word "intricate"?**

- Detailed
- Simple
- Broken
- Old

16 **What is the opposite of the word "curious"?**

- Interested
- Careful
- Uninterested
- Excited

17 **What can we infer about Lucy at the end of the story?**

- She became rich from the coin and started to spend money.
- She learned how to think wisely and value knowledge
- She lost interest in school and she left it.
- She gave the coin away to a poor man.

18 **What does the word "it" in the sentence "she picked it up" refer to?**

- The ground
- The symbol
- The coin
- The road

19 **What does the word "pondered" most nearly mean in the passage?**

- Ignored
- Thought deeply
- Forgot
- Spoke loudly

Reading Comprehension 2

Read the following passage, then choose the correct answer from a, b, c or d:

Cultural diversity plays an important role in enriching society by encouraging mutual respect, understanding, and creativity. In today's globalized world, people from different cultural backgrounds come together, bringing their own traditions, languages, and perspectives. This diversity strengthens communities by introducing new ideas, customs, and practices that support innovation and development.

One major benefit of cultural diversity is its positive effect on education. When students are exposed to different cultures, they become more empathetic and open-minded, which helps them build strong and respectful relationships. In the workplace, diversity brings together a range of viewpoints, leading to more creative solutions and better decision-making.

In addition, cultural diversity helps preserve and celebrate unique traditions that are passed down through generations. This strengthens community identity and creates a sense of pride and belonging. Although challenges such as prejudice and discrimination may occur, creating an inclusive environment where everyone feels valued is essential for a peaceful and successful society.

In conclusion, cultural diversity is a key factor in building a vibrant and connected society. It promotes cooperation, increases understanding, and contributes to overall human progress.

CamScanner

Choose the correct answer from a, b, c or d: (1 mark each)

20 What is the main idea of the passage?

- b) Cultural diversity promotes mutual respect, creativity, and progress
- c) Cultural diversity only creates challenges
- d) Cultural diversity is unimportant in today's world

21 Which word is closest in meaning to "fostering" in the passage?

- a) Promoting
- b) Ignoring
- c) Rejecting
- d) Limiting

22 According to the passage, which statement is TRUE?

- a) Cultural diversity only affects education
- b) Cultural diversity encourages innovation and creativity
- c) Cultural diversity weakens community identity
- d) Cultural diversity has no impact on workplaces

23 Which statement is NOT TRUE according to the passage?

- a) Cultural diversity supports personal and professional growth
- b) Cultural diversity brings together different traditions and languages
- c) Cultural diversity improves decision-making in workplaces
- d) Exposure to different cultures does not affect students' empathy

24 What does "preserving unique traditions" mean in the passage?

- a) Creating new traditions
- b) Ignoring old customs
- c) Maintaining and celebrating cultural heritage
- d) Restricting cultural expression

25 Which word in the passage means "working together toward a common goal"?

- a) Cooperation
- b) Disagreement
- c) Conflict
- d) Competition

26 According to the passage, how does cultural diversity benefit education?

- a) It only teaches new customs
- b) It makes students focus only on their own culture
- c) It helps students develop empathy and open-mindedness
- d) It creates misunderstandings among students

27 What challenge related to cultural diversity is mentioned in the passage?

- a) Creating new traditions
- b) Prejudice and discrimination
- c) Lack of creativity
- d) Reduced economic growth

Reading Comprehension 1

Read the following passage, then choose the correct answer from a, b, c or d:

Adham had always been captivated by music. His grandmother, Sawsan, who lived in a small cottage near the woods, was a talented pianist. Her beautiful melodies once filled the house with warmth and comfort, but one day, the music suddenly stopped. She explained that she had forgotten a special melody she loved, and without it, she lost her inspiration.
Adham visited her every weekend, hoping she would play again, but the piano remained silent. One afternoon, while sitting near it, he noticed an old, worn-out music sheet hidden under the piano bench. Although the writing had faded, he could still read its title: The Forgotten Melody.
He showed it to his grandmother, and her face filled with surprise and emotion. "I haven't seen this in years," she said softly, touching the paper. She immediately sat at the piano and began to play.
The music slowly returned, as if it had been waiting to be heard again. She played with passion and grace, and Adham watched in amazement. At that moment, he understood that memories, like music, are never truly lost—they only need something to bring them back.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the central theme of the narrative?**

a) The technical challenges of mastering classical piano
b) The powerful link between memory and meaningful triggers
c) A boy's ambition to become a professional musician
d) The peaceful setting of a countryside cottage

13 **What was the main reason for Sawsan's long silence?**

a) She had lost a key melody that inspired her music
b) She had developed a physical inability to play
c) She no longer enjoyed playing the piano
d) The piano was damaged and unusable

14 **Where did Adham find the item that restored the music?**

a) Inside an old attic chest
b) On top of the piano
c) In a drawer among photographs
d) Hidden beneath the piano bench

15 **How did Sawsan initially react to the music sheet?**

a) She doubted it was real
b) She felt surprised and deeply moved
c) She could not read it clearly
d) She ignored it completely

16 **Which word best describes Adham's feelings while listening?**

a) Indifferent
b) Anxious
c) Spellbound
d) Sad

CamScanner

17 **What does the story suggest about memories?**

- They fade and disappear completely over time
- They can be revived when triggered by meaningful reminders
- They are only reliable when written down
- They are strongest only during childhood

18 **Which title best reflects the deeper meaning of the passage?**

- The Silent Piano
- A Musical Journey
- The Echoes of Rediscovery
- A Visit to Grandmother

19 **In the sentence "Adham watched in amazement," what does "amazement" most nearly mean?**

- Confusion
- Great surprise and admiration
- Distraction
- Tiredness

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Food security is the state where all people, at all times, have access to sufficient, safe, and nutritious food that meets their dietary needs for an active and healthy life. However, global hunger continues to be a persistent issue, with millions of people worldwide suffering from undernourishment and food insecurity. Factors contributing to food insecurity include poverty, climate change, political instability, and conflicts, which can all disrupt food production and distribution systems. The World Food Programme (WFP) estimates that nearly 690 million people globally are undernourished. In many developing countries, lack of resources and infrastructure makes it difficult for families to access nutritious food. This has long-term impacts on health, education, and productivity, creating a vicious cycle of poverty and hunger. Malnutrition, especially among children, can lead to stunted growth, weakened immune systems, and increased vulnerability to diseases.

To combat global hunger, efforts must focus on increasing agricultural productivity, improving food distribution systems, and addressing the root causes of poverty and conflict. Governments, international organizations, and non-governmental agencies need to collaborate to promote sustainable agricultural practices and ensure that food reaches the most vulnerable populations. Additionally, reducing food waste and making nutritious food more accessible can help alleviate food insecurity in many parts of the world.

In conclusion, addressing food security and global hunger requires a multifaceted approach that involves local, national, and global action. Ensuring food security for all is essential for the well-being of individuals and societies worldwide.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the text?**

- Food security is only important in developed countries
- Global hunger is caused by food waste alone
- Food security and global hunger are linked and require multi-level action
- Climate change is the only cause of food insecurity

21 **Which of the following is the closest in meaning to "undernourishment"?**

- Being overfed
- Insufficient access to food
- Excessive hunger
- Sufficient food intake

CamScanner

22 According to the text, which of the following statements is TRUE?

(a) Hunger is no longer a global issue
(b) Food insecurity is a problem only in wealthy nations
(c) Food security is about access to nutritious food for a healthy life
(d) Malnutrition has no long-term effects on individuals

23 Which of the following statements is UNTRUE according to the text?

(a) Malnutrition can lead to stunted growth and weakened immune systems
(b) Political instability and conflicts can disrupt food systems
(c) Climate change is one of the factors affecting food security
(d) Poverty does not contribute to food insecurity

24 What does the word "vicious" in the text mean?

(a) Positive and hopeful.
(b) Harmless, but sustainable.
(c) Dangerous and self-perpetuating.
(d) Unchangeable for a long time.

25 What can help address global hunger, according to the text?

(a) Improving agricultural productivity and food distribution
(b) Reducing population growth globally
(c) Encouraging unhealthy food choices
(d) Ignoring food waste

26 According to the text, what impact does hunger have on children?

(a) It has no impact at all.
(b) It causes physical and mental issues.
(c) It encourages children to work harder.
(d) It helps children develop more resistance.

27 What should be done as a solution?

(a) Efforts only from wealthy countries
(b) Food production increases without considering poverty
(c) A collaborative approach between governments, organizations, and agencies
(d) Ignoring the causes of food insecurity

(b) To replace quotation marks
(c) To join two closely related independent clauses
(d) To begin a sentence

Reading Comprehension (1)

Read the following passage, then choose the correct answer from a, b, c or d:

In a rapidly changing world, resilience and agile thinking are essential skills for overcoming challenges. The idea of "failing better" encourages individuals to view failure as a learning opportunity rather than a setback. When people adapt quickly, analyze their mistakes, and apply new strategies, they grow stronger and more capable.

Equally important are tolerance and acceptance, which help foster understanding and unity among diverse communities. Valuing the experiences of others allows individuals to gain new perspectives, break down stereotypes, and build meaningful connections. When people embrace differences with an open mind, societies become more inclusive and harmonious.

Moreover, resilience and acceptance play a crucial role in professional and personal growth. In the workplace, employees who adapt to change and collaborate with people from different backgrounds contribute to innovation and success. In daily life, being open to new experiences and different viewpoints enhances emotional intelligence and strengthens relationships.

At the heart of resilience is the ability to keep moving forward despite obstacles. Those who learn from failure rather than fear it become better problem solvers and decision-makers. Likewise, practicing tolerance leads to a more peaceful and cooperative world, where differences are seen as strengths rather than barriers.

By combining resilience with acceptance, individuals and communities can navigate difficulties with confidence and compassion. Learning from failure and appreciating diverse viewpoints not only strengthens personal growth but also paves the way for a more innovative and tolerant world.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

(a) Failure should be avoided at all costs.
(b) Resilience and acceptance help individuals and societies grow.
(c) Only tolerance can lead to success.
(d) Agile thinking is only useful in the workplace.

13 **What does the phrase "failing better" mean in the passage?**

(a) Avoiding mistakes at all costs.
(b) Accepting defeat without trying again.
(c) Ignoring failure and moving on without reflection.
(d) Learning from failures to improve and succeed.

14 **Which of the following is a benefit of tolerance and acceptance?**

(a) It helps build understanding and unity.
(b) It creates divisions in society.
(c) It prevents people from learning new things.
(d) It makes people more fearful of failure.

CamScanner

15 Why is resilience important in the workplace?

- It forces people to accept failure
- It helps employees adapt to change and contrlbute to success.
- It eliminates the need for teamwork
- It makes employees less creative.

16 What is one way resilience helps individuals?

- It allows them to avoid challenges.
- It makes them unwilling to accept others' viewpoints.
- It helps them learn from mistakes and improve
- It prevents them from taking risks.

17 Which statement is TRUE according to the passage?

- Tolerance and acceptance can break down stereotypes
- Failure is always a negative experience
- Resilience is only necessary in professional settings
- Acceptance means agreeing with everyone.

18 Which of the following is NOT mentioned as a benefit of resilience?

- Becoming a better problem solver
- Strengthening relationships
- Gainlng new perspectives
- Avoiding challenges

19 What is the most suitable title for the passage?

- The Role of Success in Life
- Overcoming Failure Without Trying Again
- The Importance of Resilience and Tolerance
- How to succeed in your career.

Reading Comprehension 2

Read the following passage, then choose the correct answer from a, b, c or d:

Every day, unseen forces shape our decisions—what we watch, buy, and even believe. Algorithms silently guide our digital experiences, predicting our preferences before we even realize them. While they offer convenience, they also create echo chambers, limiting diverse perspectives. Are we truly in control of our choices, or are we merely following a path designed for us? Understanding this hidden influence is crucial in an age where data drives everything. The challenge is to use technology without letting it use us.

Social media platforms, online shopping websites, and streaming services all rely on algorithms to personalize our experiences. These systems analyze our past actions to suggest content, products, or even opinions that match our preferences. However, this personalization comes with risks. When we are repeatedly exposed to similar ideas, we may become unaware of alternative viewpoints. This can reinforce biases, influence our opinions, and even affect major decisions, such as political views or consumer habits.

Moreover, algorithms are designed to maximize engagement, often prioritizing content that triggers strong emotions. As a result, misinformation and sensationalized news can spread rapidly, affecting public perception. While algorithms are powerful tools, they should be used responsibly. Individuals must be aware of how their digital experiences are shaped and seek information beyond what is automatically provided to them.

In conclusion, technology should empower us, not control us. Being aware of algorithmic influence allows us to make informed decisions and maintain a balanced perspective in a digital world.

CamScanner

Choose the correct answer from a, b, c or d: (1 mark each)

20 What is the main theme of the text?

- a) The advantages of technology in modern life
- b) The dangers of artificial intelligence
- c) The hidden influence of algorithms on human choices
- d) The importance of learning to code

21 What is a synonym for "predicting" as used in the text?

- a) Controlling
- b) Guessing
- c) Ignoring
- d) Replacing

22 Why do algorithms create "echo chambers"?

- a) They expose people to diverse viewpoints.
- b) They stop users from interacting with content.
- c) They provide only educational content.
- d) They limit exposure to different opinions by reinforcing existing preferences .

23 What best summarizes the second paragraph?

- a) Algorithms track online behavior to provide personalized experiences, but this can lead to bias and influence major decisions.
- b) Algorithms help people make informed decisions.
- c) Personalization in technology makes online shopping easier.
- d) The use of algorithms is always harmful.

24 How do algorithms affect public perception?

- a) They provide only accurate and reliable information.
- b) Theyprioritizecontentthatmaximizesengagement, sometimesspreadingmisinformation.
- c) They ensure fair and balanced viewpoints.
- d) They do not have any impact on public perception.

25 What would likely happen if people did not question algorithmic influence?

- a) They would be exposed to a variety of perspectives.
- b) They would have complete control over their decisions.
- c) Their choices and opinions might be shaped without them realizing it.
- d) Algorithms would stop working.

26 What is the suggested solution to the challenges posed by algorithms?

- a) Avoid using technology altogether.
- b) Trust all recommended content blindly.
- c) Let technology make all decisions for us.
- d) Be aware of algorithmic influence and seek diverse perspectives.

27 What is a suitable title for this text?

- a) The Silent Influence of Algorithms on Our Choices
- b) The Power of Social Media on people.
- c) How to Build an Algorithm.
- d) The Future of Artificial Intelligence.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Max had always been a seeker of stories, treating his grandmother's antique-filled home like a living museum. While exploring the attic's dusty depths one afternoon, he unearthed an ornate, heavy key etched with intricate, swirling patterns.

When he showed the find to his grandmother, her face paled. She whispered that the key belonged to a basement room she and his grandfather had sealed decades ago—a place for memories they felt were "better left forgotten."

Ignoring the silent warning, Max's curiosity led him to the basement. He pushed aside towering bookshelves to reveal a concealed door. The rusty lock yielded with a heavy groan, but inside, he found no ghosts or dark secrets. Instead, Max discovered a sanctuary of the past: sepia-toned photographs, stacks of handwritten letters, and delicate trinkets from his grandparents' youth.

The room had not been sealed because of a curse, but because of the sheer emotional weight of the life lived within it. In that quiet space, Max realized that history should not be hidden out of fear, but cherished as a bridge to the present. The key had done more than open a door; it had unlocked a profound, living connection to his family's heritage.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What initially sparked Max's interest in the attic?

- a) A specific request from his grandmother.
- b) His lifelong fascination with historical objects.
- c) A desire to find a hidden room in the basement.
- d) The need to clean out weathered chests.

13 Which adjective best describes the physical appearance of the key?

- a) Plain and lightweight.
- b) New and shining.
- c) Ornate and intricate.
- d) Small and plastic.

14 How did the grandmother react when she first saw the key?

- a) She was visibly disturbed and hesitant.
- b) She was indifferent and ignored it.
- c) She was delighted and nostalgic.
- d) She was angry at Max for being in the attic.

15 The phrase "memories... better left forgotten" suggests that the grandparents:

- a) Had lost their memory due to old age.
- b) Found the past too heavy or emotional to revisit.
- c) Wanted Max to find the room as a surprise.
- d) Had moved all the valuable items to the attic.

16 Where was the door to the sealed room located?

- a) Behind a weathered chest in the attic.
- b) Underneath the floorboards of the kitchen.
- c) Behind tall bookshelves in the basement.
- d) Inside the grandmother's bedroom.

CamScanner

17 **What was the "treasure" Max discovered inside the room?**

(a) Gold coins and expensive jewelry
(b) Supernatural entities and ghosts.
(c) Antique furniture and rare paintings.
(d) Personal artifacts like photos and letters.

18 **What is the "profound connection" Max feels at the end of the story?**

(a) A realization that his family was wealthy.
(b) A sense of belonging to his family's history.
(c) A fear that he will also forget his past.
(d) A desire to become a professional museum curator.

19 **What is the central theme of the story?**

(a) The dangers of exploring old houses.
(b) The importance of following elderly advice.
(c) The value of preserving heritage through love.
(d) The difficulty of cleaning dusty attics.

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Cats held a special place in Ancient Egyptian society. They were admired for their grace and hunting abilities, particularly in controlling rodents that threatened food supplies. Over time, they became more than just useful animals—they were considered sacred and even worshipped.
The goddess Bastet, often depicted as a lioness or a cat-headed woman, was associated with home, fertility, and protection. Egyptians believed that cats carried divine energy and brought good fortune to households. Killing a cat, even by accident, was considered a grave crime and could result in severe punishment.
Many wealthy Egyptian families adorned their cats with jewelry and treated them like family members. When a beloved cat died, its owner often shaved their eyebrows as a sign of mourning. Some cats were even mummified and buried in elaborate tombs to accompany their owners in the afterlife.
Egyptian art and hieroglyphs frequently featured cats, reflecting their importance in daily life and religious beliefs. Traders and travelers helped spread the Egyptian reverence for cats to other civilizations, leading to their global popularity.
Today, cats are still admired for their independence and elegance, and their deep connection to Ancient Egyptian culture remains a fascinating part of history.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What was one reason why Egyptians valued cats?**

(a) They could predict the weather
(b) They could speak to the gods
(c) They were used for transportation
(d) They helped control pests

21 **What would an Egyptian do to mourn a cat's death?**

(a) Wear black clothing
(b) Build a statue
(c) Shave their eyebrows
(d) Stop eating for a week

Reading Comprehension 1

Read the following passage, then choose the correct answer from a, b, c or d:

Long ago, a powerful lion was resting peacefully in the forest when a small mouse accidentally ran over his paw. Startled and annoyed, the lion quickly captured the tiny creature. Trembling with fear, the mouse pleaded, "Please spare my life, and one day I will return your kindness."
The lion laughed at the idea that such a small animal could ever be of help, but he decided to release her anyway. "You are too small to pose any threat," he said, "but I will let you go."
Not long after, the lion was caught in a hunter's net. Despite his strength, he could not break free and roared loudly for help. Hearing his cries, the mouse hurried to his side and began gnawing at the ropes until the lion was finally free.
Filled with gratitude, the lion admitted his mistake. "I underestimated you," he said. "You have proven that even the smallest creature can make a great difference."
From that moment on, they formed an unlikely friendship, and the lion never again judged others by their size.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the central message of the story?

(a) Even the smallest individuals can have a big impact
(b) Physical strength is the key to success
(c) It is safer to avoid making friends
(d) Weak individuals should not be trusted

13 Which of the following statements is TRUE?

(a) The lion ignored the mouse's plea for mercy
(b) The mouse saved the lion by cutting through the net
(c) The lion remained trapped until the hunter returned
(d) The mouse was unable to help the lion

14 Which word is closest in meaning to *"return your kindness"*?

(a) ignore (b) betray (c) repay (d) punish

15 Which statement is NOT true according to the story?

(a) The lion caught the mouse under his paw
(b) The mouse freed the lion from the net
(c) The lion learned a valuable lesson
(d) The lion released the mouse because he feared her

16 What is the relationship between the lion and the mouse at the end?

(a) Enemies (b) Friends (c) Strangers (d) Rivals

17 What lesson does the lion learn?

(a) Strength is all that matters
(b) Small creatures cannot be trusted
(c) Size does not determine value
(d) Only powerful animals are important

CamScanner

18 **Which option best summarizes the story?**

- a) A tiny mouse rescues a trapped lion
- b) A llon hunts a mouse in the forest
- c) A mouse tricks a lion into a trap
- d) A lion refuses help from others

19 **Which title best fits the story?**

- a) The Careless Lion
- b) Small Acts, Great Impact
- c) The Mouse's Revenge
- d) The Hunter's Victory

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

In ancient Egypt, the construction of monumental structures like the pyramids required ingenlous engineering techniques. Workers relied heavily on simple machines such as levers and ramps to move and lift massive stones. Levers allowed them to lift heavy blocks by applying force at one end while uslng a fulcrum to pivot the weight. Ramps, often made of mudbrick or limestone chippings, provided Inclined surfaces so that stones could be dragged upward to the desired helght. Teams of laborers would pull the stones using ropes while others lubricated the path with water or oil to reduce friction. Thls combination of levers and ramps made it possible to transport stones weighing several tons over long dlstances, enabling the precise alignment and stacking required for pyramid construction. Beyond practical use, these tools reflect the Egyptians' understanding of basic mechanical principles centuries before the invention of modern machinery. Levers and ramps were not only essential for construction but also illustrate the creativity and collaboration of large teams of workers. The success of these techniques contributed to some of the most enduring architectural achievements in human history, demonstrating that innovation and practical knowledge often work hand in hand to solve complex problems.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the text?**

- a) Pyramids were used as tombs for pharaohs.
- b) Ancient Egyptians built pyramids using innovative tools like levers and ramps.
- c) Workers in ancient Egypt only carried stones manually.
- d) Ramps were decorative structures in pyramid construction.

21 **What can be inferred about the workers who built the pyramids?**

- a) They collaborated in large teams to move heavy stones efficiently.
- b) They built pyramids without planning .
- c) They relied entirely on natural forces to move stones.
- d) They used modern machines to lift stones.

(a) "The Pharaohs and Their Tombs"
(b) "Daily Life of Ancient Egyptian Farmers"
(c) "Levers and Ramps: Engineering Pyramids in Ancient Egypt"
(d) "The History of Hieroglyphs"

23 In the text, the word transport is closest in meaning to: .....

(a) carve (b) measure (c) decorate (d) move

24 Why were levers and ramps essential in pyramid construction?

(a) Because they made stones lighter naturally
(b) Because they reduced the number of workers to one person
(c) Because they allowed workers to move very heavy stones safely and efficiently
(d) Because they were primarily decorative

25 Which statement is correct according to the text?

(a) Ramps were made of metal.
(b) Workers lubricated ramps with water or oil to reduce friction.
(c) Levers were used only to carve stones.
(d) Pyramids were built entirely without human labor.

26 In the sentence, "These tools reflect the Egyptians' understanding of basic mechanical principles," what does "tools" refer to?

(a) Levers and ramps (b) Stones (c) Workers (d) Pyramids

27 What does the text suggest about innovation in ancient Egypt?

(a) Egyptians had no understanding of mechanics.
(b) Practical knowledge and creativity allowed Egyptians to solve complex engineering problems.
(c) Tools were imported from other countries.
(d) Pyramids were built only by chance.

- (b) the challenges faced by job seekers
- (c) the benefits of changing careers
- (d) how to become a successful entrepreneur

Reading Comprehension (1)

Read the following passage, then choose the correct answer from a, b, c or d:

The increasing demand for energy has led to a greater reliance on fossil fuels, which contribute significantly to pollution and climate change. As a result, green energy has emerged as a vital alternative. This term refers to renewable sources such as solar, wind, hydro, and geothermal power, which produce minimal environmental harm. Unlike fossil fuels, these sources are sustainable and do not deplete over time.

One of the greatest benefits of green energy is its ability to reduce greenhouse gas emissions, a major cause of global warming. Additionally, renewable energy can create job opportunities and enhance energy security by reducing dependence on imported fuels. Many countries are now investing in wind farms and solar power plants to ensure a cleaner future.

However, despite its advantages, green energy faces challenges. High initial costs and dependence on weather conditions for solar and wind power can limit its efficiency. Moreover, energy storage solutions are still being developed to address the issue of inconsistent supply.

To overcome these obstacles, governments and the private sector are working on innovations such as advanced battery technology and improved infrastructure. By making green energy more accessible and efficient, the world can move towards a more sustainable future, ensuring both economic growth and environmental protection.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

- (a) The history of fossil fuels and their uses
- (b) The challenges of global warming
- (c) The benefits and challenges of green energy as an alternative to fossil fuels
- (d) The process of building wind farms and solar power plants

CamScanner

13 The word "indispensable" in the passage is closest in meaning to:

- (a) Unnecessary
- (b) Temporary
- (c) Harmful
- (d) Essential

14 Which statement is TRUE according to the passage?

- (a) Green energy contributes more to pollution than fossil fuels
- (b) Many countries avoid investing in renewable energy
- (c) Green energy can reduce greenhouse gas emissions
- (d) Solar and wind power plants do not depend on weather conditions

15 Which statement is UNTRUE according to the passage?

- (a) Green energy is not sustainable
- (b) Fossil fuels contribute to climate change
- (c) Renewable energy can create job opportunities
- (d) Advanced battery technology can help address energy supply issues

16 What does the phrase "these sources" refer to?

- (a) Fossil fuels
- (b) Greenhouse gases
- (c) Renewable energy sources
- (d) Imported fuels

17 What is one challenge of green energy mentioned in the passage?

- (a) It depletes natural resources
- (b) It increases air pollution
- (c) It completely replaces traditional energy sources without issues
- (d) High initial costs can limit its efficiency

18 According to the passage, what are governments and the private sector doing to support green energy?

- (a) Building more fossil fuel plants
- (b) Developing advanced battery technology
- (c) Banning all renewable energy projects
- (d) Increasing dependence on imported fuels

CamScanner

19 **Which of the following would be the most suitable title for the passage?**

- a "The Rise and Fall of Fossil Fuels"
- b "Green Energy: A Path to a Cleaner Future"
- c "The History of Solar and Wind Power"
- d "Economic Impacts of Imported Fuels"

Reading Comprehension 2

Read the following passage, then choose the correct answer from a, b, c or d:

Commander Maya Carter was the only person awake on the Starship Aurora. A malfunction in the sleep system left the rest of the crew in deep sleep during their journey to a distant planet. Maya had to take full responsibility for the shlp, ensuring that everything operated smoothly. As time passed, she began noticing unusual events. Lights flickered, faint sounds came from her communication panel, and tools appeared to shift on their own. At first, she assumed it was just her imagination caused by isolation in space.

One day, the ship's computer, NOVA, issued a warning: "Unidentified activity detected in Sector 7." Though nervous, Maya decided to investigate. She put on her space suit and carefully made her way into Sector 7. The air felt cold, and her helmet slightly fogged up. Suddenly, she noticed a shadow. It slowly transformed into a transparent figure with glowing eyes. The creature did not appear hostile. After observing it, Maya realized it was lost and needed help retuming to its own dimension.

Using the ship's advanced system, Maya managed to create a portal. The creature passed through it, and immediately, all the strange disturbances stopped.

When the crew finally woke up, they were skeptical of her story—until they reviewed the recorded footage. Maya had successfully made contact with a being from another dimension.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What does the word "portal" mean in the story?**

- a A door to another place
- b A part of the ship
- c A tool for fixing things
- d A food storage area

21 **Which of the following best summarizes paragraph 2?**

- a Maya saw the creature immediately.
- b Maya heard NOVA's warning and went to Sector 7.
- c The ship landed on a new planet.
- d The crew woke up from their sleep.

CamScanner

22 **What would be a suitable title for this story?**

- A Normal Day in Space
- Life on a New Planet
- The Lost Creature
- Sleeping Through the Journey

23 **Which statement is TRUE?**

- The creature attacked Maya.
- NOVA helped Maya find the creature.
- The crew was awake the whole time.
- The ship landed on a new planet.

24 **Which statement is UNTRUE?**

- Maya created a portal to help the creature.
- The tools on the ship moved on their own.
- NOVA detected something strange.
- The creature destroyed the ship.

25 **Why did Maya put on her space suit?**

- To fix the ship's engines
- To explore Sector 7 safely
- To wake up the crew
- To go outside the ship

26 **What was Maya's first reaction to the strange events?**

- She thought she was imagining things.
- She immediately called the crew.
- She shut down the ship's systems.
- She ignored NOVA's warnings.

27 **How did the crew finally believe Maya's story?**

- She drew a picture of the creature.
- The ship's computer confirmed it.
- They watched the video footage.
- The creature left a message.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Proper ventilation is essential in maintaining a healthy environment, especially for the sick. Many believe fresh air to be a threat to patients, leading to closed windows and stagnant air. However, the truth is quite the opposite. Fresh air is crucial for recovery, as it removes harmful particles and refreshes the air with oxygen. Windows should be opened regularly, and rooms should be aired out thoroughly. A good nurse will always prioritize fresh air, even in winter, ensuring that the patient is not exposed to direct drafts while still benefiting from ventilation.

Equally important is the management of sanitation. Dust, dirt, and unwashed linens are not just unpleasant but can harbor dangerous germs. A nurse should always maintain an environment that is clean, tidy, and free from sources of infection. Simple habits, such as regular washing and the immediate removal of soiled items, can significantly reduce the risk of illness.

Attention to diet is another vital aspect of nursing. Providing the right food at the right time can make a profound difference in a patient's recovery. It is not merely about offering nourishment but also about understanding the patient's preferences and ensuring they consume what is provided. A nurse should observe how much the patient eats and whether they find the food appealing.

Nursing is not just about administering medicine but about creating an environment where natural healing can occur. Thoughtful attention to ventilation, cleanliness, and diet can transform a sickroom into a place of comfort and recovery

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

- a) The dangers of winter air
- b) The importance of proper nursing practices
- c) The benefits of medication
- d) How to decorate a sickroom

13 **According to the passage, why is fresh air important for patients?**

- a) It makes the room smell nice
- b) It increases the room's temperature
- c) It prevents noise from entering
- d) It helps remove harmful particles

14 **What does the word "ventilation" in the passage mean?**

- a) Allowing fresh air to circulate
- b) Decorating a room
- c) Blocking windows
- d) Applying medication

15 **How can sanitation reduce the risk of illness according to the passage?**

- a) By reducing food intake
- b) By avoiding winter drafts
- c) By keeping dust and germs away
- d) By using strong perfumes

16 **What role does diet play in patient recovery?**

- a) It is not important
- b) It can significantly aid recovery
- c) It only matters during winter
- d) It should always be spicy

a) The Art of Nursing
b) Winter Nursing Techniques
c) The Best Medications for Patients
d) The History of Nursing

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Mowgli was a young boy who grew up in the heart of the jungle after being separated from his family. He was found and raised by a pack of wolves, who treated him as one of their own. Under their care, Mowgli learned the ways of the jungle, including how to hunt, survive, and respect its laws. He was guided by wise animal friends such as Baloo the bear, who taught him important life lessons, and Bagheera the panther, who protected him from danger.

However, life in the jungle was not always peaceful. Shere Khan, a fierce tiger, saw Mowgli as a threat and wanted to drive him away. Despite this danger, Mowgli showed great courage and intelligence. He learned to use both his human skills and his understanding of the animal world to overcome challenges.

As Mowgli grew older, he began to question where he truly belonged—among humans or animals. His journey became not only one of survival but also one of identity and self-discovery. In the end, Mowgli's story teaches us about bravery, friendship, and the importance of finding one's place in the world.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

a) Life in the jungle is easy and peaceful
b) Mowgli's journey of survival and self-discovery
c) Animals are more intelligent than humans
d) The dangers of living with wolves

- (d) The benefits of digital education enhancements

Reading Comprehension (1)

Read the following passage, then choose the correct answer from a, b, c or d:

Mahmoud Mokhtar was one of Egypt's most important modern sculptors and a pioneer of contemporary Egyptian art. He was born in 1891 and showed a strong talent for sculpture from a young age. His passion for art led him to study in Paris, where he was influenced by European artistic styles while maintaining a deep connection to his Egyptian roots and heritage. His most famous work is the statue Nahdet Misr (meaning "Egypt's Renaissance" or "Awakening of Egypt"). This remarkable sculpture became a powerful national symbol after the Egyptian Revolution of 1919, reflecting the hopes and aspirations of the Egyptian people for independence, unity, and progress. The statue features a peasant woman standing proudly beside a sphinx. The woman represents strength, determination, and the spirit of the Egyptian people, while the sphinx symbolizes the greatness of ancient Egyptian civilization. Together, they convey the idea that modern Egypt is rising by combining its glorious past with a bright and hopeful future. Today, Nahdet Misr stands in Cairo as a symbol of national pride and cultural identity. Mokhtar's work continues to inspire generations and remains a milestone in the development of modern Egyptian art.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

- (a) The influence of European art on Egypt
- (b) The life of Egyptian farmers

15 Which statement is CORRECT according to the passage?

- a Mokhtar rejected European influence
- b The statue only represents ancient Egypt
- c Nahdet Misr was created before 1891
- d The statue combines symbols of both past and future

16 Which statement is INCORRECT?

- a The statue represents weakness and fear
- b The sphinx symbolizes ancient civilization
- c Mokhtar studied in Paris
- d The statue stands in Cairo

17 What can be inferred about Mahmoud Mokhtar?

- a He ignored Egyptian culture
- b He blended international styles with national identity
- c He only worked outside Egypt
- d He was not recognized in his lifetime

18 The word "milestone" most nearly means .....

- a Great failure
- b Colorful decoration
- c Good beginning
- d Important achievement

19 Why is Nahdet Misr considered important?

- a It is the oldest statue in Egypt
- b It was made in Europe
- c It symbolizes national pride, identity, and progress
- d It represents only ancient history

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

In a quiet village among rolling hills, villagers whispered about the very first mechanical clock. Its inventor was unknown, but legend claimed it did more than measure time—it could reveal secrets of the past.
One stormy evening, a curious historian named Elias arrived. Tales told of the clock hidden in the attic of the old mayor's house. Determined to see it, he knocked on the ancient wooden door.
"Why have you come?" asked the mayor, peering over his spectacles.
"I want to see the first clock," Elias replied.
The mayor's eyes narrowed. "It doesn't welcome those who seek fame," he warned.
Ignoring him, Elias climbed the spiral staircase. Under a thick layer of dust, he found a small wooden box. Inside rested a golden clock with intricate gears and mysterious symbols. The moment he touched it, the hands spun backward. Shadows flickered, and a cold wind swept through the attic.
A whisper echoed: "Only the worthy can set time right."
Trembling, Elias adjusted the gears. The clock chimed, the wind stilled, and a hidden drawer opened, revealing a map marking treasures and forgotten history.
Elias smiled. The first clock had revealed its secrets—but only to those brave enough to solve its riddle.

CamScanner

Exam.12

Choose the correct answer from a, b, c or d: (1 mark each)

20 **Why was the first clock considered special?**

- a) It could tell the time of day accurately

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

The Valley of the Whales, also known as Wadi Al-Hitan, is one of the most remarkable fossil sites in the world. Located in Egypt's Western Desert, this valley contains hundreds of fossils of ancient whales that lived about 40 to 50 million years ago. Unlike modern whales, these early whales had small legs and walked on land as well as swam in water.

Scientists and geologists study these fossils to understand how whales evolved from land animals into the magnificent creatures we know today. The fossils are exceptionally well-preserved, showing the shape of the whale's spine, skull, and even teeth. Some fossils are complete skeletons, while others show the stages of transformation over millions of years.

The Valley of the Whales was declared a UNESCO World Heritage Site because of its scientific importance and unique natural beauty. Tourists, researchers, and students visit the valley to witness these ancient remains and learn about the history of life on Earth.

Walking through the valley, one can imagine a time when the desert was once a shallow sea, full of life. The Valley of the Whales is not only a window into the past but also a reminder of how life changes and adapts over millions of years.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

(a) The Valley of the Whales contains fossils that help scientists study whale evolution.
(b) The Valley of the Whales is a popular tourist destination.
(c) Whales used to live in the Western Desert.
(d) The desert was always a dry area with no life.

13 **The word "magnificent" in the passage is closest in meaning to: .....**

(a) wonderful (b) small (c) ordinary (d) weak

14 **In the sentence, "Unlike modern whales, these early whales had small legs and walked on land as well as swam in water," the word "these" refers to: .....**

(a) modern whales (b) ancient whales (c) scientists (d) visitors

15 **What can be inferred about the desert where the fossils were found?**

(a) It has always been a desert.
(b) It was home to only land animals.
(c) It was once a shallow sea millions of years ago.
(d) It was covered by forests.

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

When Sarah saw the job posting for a Student Welfare Officer at her local university, she knew it was the perfect opportunity to combine her passion for helping students with her professional skills. She had always been dedicated to supporting her peers, volunteering as a mentor during her university years. Now, she wanted to take this passion further by making a real difference in a professional capacity.

Sarah immediately began working on her application. She carefully crafted her cover letter, highlighting her experience in student support services, organizing well-being workshops, and collaborating with university departments. Her resume showcased her relevant qualifications, including a degree in Psychology and her work as a support assistant.

After submitting her application, Sarah was invited for an interview. She prepared thoroughly, researching the university's student welfare programs and practicing her responses to potential questions. During the interview, Sarah shared her ideas for promoting mental health awareness, improving access to resources, and creating a welcoming environment for all students.

A week later, Sarah received a phone call offering her the position. Overjoyed, she accepted and began planning her initiatives as the new Student Welfare Officer. She knew this role would not only allow her to support students but also help them thrive both academically and personally.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Omar had been navigating the grueling waters of unemployment for months. Despite possessing stellar qualifications, his inbox had become a graveyard of cold rejections. However, the tide turned one providential morning when a prestigious firm invited him for an interview.

Adorned in his finest attire and fueled by a mixture of anxiety and hope, Omar arrived punctually. Yet, the moment he stepped into the boardroom, the atmosphere shifted. The manager, glancing at a file, asked, "Are you Mr. Omran?"

Omar's heart sank. He realized, with painful clarity, that he had misheard the name during the initial phone call—this appointment was never intended for him. Flushed with embarrassment, he stammered an apology and turned to leave. To his surprise, the manager interrupted, "Since you're already here, why don't you tell me about yourself?"

Seizing the unexpected opportunity, Omar presented his skills and ambitions with confidence and clarity. The manager listened attentively, clearly impressed by his composure and determination. Forty-eight hours later, Omar received a life-changing call—not a mistake this time, but a formal job offer. He learned that while errors can be humbling, they can also open unexpected doors to success.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the primary theme of the narrative?**

a) Hard work is always rewarded immediately

19 **In the sentence "Omar arrived punctually," the word "punctually" means .....**

(a) Nervously but happy
(b) At the exact scheduled time
(c) Fully prepared
(d) Elegantly dressed

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Getting enough quality sleep is crucial for overall well-being. Scientists have long studied the science of sleep, revealing that it plays a vital role in physical health, mental clarity, and emotional stability. During sleep, the body undergoes critical processes, including cell repair, hormone regulation, and memory consolidation. Without sufficient rest, people may experience fatigue, difficulty concentrating, and weakened immunity.

The recommended amount of sleep varies by age, but adults generally need 7-9 hours per night. Quality sleep involves not only duration but also consistency. Going to bed and waking up at the same time every day helps regulate the body's internal clock, known as the circadian rhythm. This rhythm controls the sleep-wake cycle and influences energy levels throughout the day.

Creating a healthy sleep environment can significantly improve sleep quality. Experts suggest keeping the bedroom dark, cool, and quiet, as well as avolding screens and heavy meals before bed. Engaging in relaxing activities like reading or taking a warm bath can also help signal to the body that it's time to wind down.

Sleep disorders such as insomnia or sleep apnea can disrupt healthy sleep habits. If left untreated, they can lead to more serious health issues, including cardiovascular problems and anxiety. Consulting a healthcare professional is advised if sleep issues persist.

In conclusion, prioritizing sleep is not a luxury but a necessity. By adopting healthy sleep habits and addressing sleep-related issues, individuals can enhance their physical and mental health, leading to a more balanced and productive life.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Tradition and culture play an essential role in shaping our identities and connecting us with our heritage. In modern times, where rapid technological advancements and globalization influence daily life, maintaining cultural practices and traditions has become more important than ever. Traditions provide stability and continuity, offering comfort in a world that is constantly changing. Cultural practices, whether through celebrations, rituals, or art, strengthen community bonds and help preserve unique identities.

Additionally, traditions and culture serve as valuable educational tools, passing down wisdom, values, and life lessons from one generation to the next. They teach respect, empathy, and understanding of diverse perspectives. In a multicultural world, embracing cultural traditions fosters tolerance and acceptance among different communities.

However, traditions should not remain static. It is vital to adapt cultural practices to fit modern contexts while preserving their core values. This balance ensures that traditions remain relevant and meaningful for younger generations. When integrated thoughtfully, tradition and culture can inspire innovation and creativity, contributing to a richer, more inclusive society.

Overall, tradition and culture serve as a bridge between the past and the present, providing a foundation upon which modern societies can build identity, unity, and belonging.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is one key benefit of traditions mentioned in the text?**

- a) Limiting innovation
- b) Creating division
- c) Promoting isolation
- d) Offering stability

13 **According to the passage, how do traditions contribute to education?**

- a) By restricting new ideas
- b) By passing down wisdom and values
- c) By focusing only on historical events
- d) By avoiding cultural exchange

14 **Why is it important to adapt traditions to modern contexts?**

- a) To eliminate old values
- b) To ensure they remain relevant
- c) To avoid cultural diversity
- d) To make them static and unchanging

15 What does the passage suggest about the relationship between tradition and innovation?

- (a) They are always in conflict
- (b) Tradition hinders innovation
- (c) Tradition can inspire creativity
- (d) Innovation requires abandoning traditions

16 Which statement best summarizes the main idea of the passage?

- (a) Balancing tradition with modernity enriches society
- (b) Moderntimesrequireabandoningtraditions
- (c) Traditions are only for older generations
- (d) Globalization makes traditions unnecessary

17 What role do cultural practices play in communities, according to the text?

- (a) They create conflicts
- (b) They weaken social ties
- (c) They strengthen community bonds
- (d) A successful end to his job search

18 How does embracing cultural traditions affect multicultural societies?

- (a) It encourages acceptance and tolerance
- (b) It increases intolerance
- (c) It discourages cultural exchange
- (d) It promotes division

19 Which of the following is NOT mentioned as a benefit of tradition and culture?

- (a) Providing comfort in changing times
- (b) Limiting modern education
- (c) Passing down life lessons
- (d) Inspiring innovation and creativity

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

During an expedition in Egypt's Western Desert, a team of paleontologists made an astonishing discovery—a 37-million-year-old whale fossil. The fossil belonged to an ancient species called Basilosaurus isis, a top predator when the desert was once part of a vast prehistoric sea. The discovery took place in Wadi Al-Hitan, also known as the Valley of the Whales, a UNESCO World Heritage Site famous for its rich collection of marine fossils.

The researchers were amazed by the fossil's size, which stretched over 18 meters in length. This remarkable finding provided valuable insights into how modern whales evolved from land-based mammals into the ocean giants we know today. The fossil's well-preserved condition allowed scientists to examine its skeletal structure and better understand its powerful hunting abilities.

The discovery not only enriched scientific knowledge but also boosted eco-tourism in the region. Visitors from around the world now flock to Wadi Al-Hitan to see the ancient fossils and learn about the area's fascinating history. Local communities have also benefited from conservation projects aimed at preserving the site's natural and historical importance.

This discovery serves as a reminder of Earth's dynamic history and the dramatic changes it has undergone over millions of years. It also highlights the importance of preserving our natural heritage, inspiring both scientists and the public to appreciate the mysteries of the ancient world.

CamScanner

Choose the correct answer from a, b, c or d: (1 mark each)

20 What is the main idea of the passage?

- a) The evolution of marine animals
- b) The discovery of a whale fossil in the desert
- c) Tourism in Egypt's Western Desert
- d) The history of Basilosaurus isis

21 The word "flock" most nearly means _____.

a) scatter b) wander c) gather d) disappear

22 What is the main significance of the Basilosaurus isis fossil discovery?

- a) It proved dinosaurs lived in the Western Desert
- b) It showed how ancient whales adapted to desert climates
- c) It revealed new information about ancient land mammals
- d) It provided insights into the evolution of modern whales

23 What does the phrase "the fossil's well-preserved state" suggest?

- a) The fossil was in good condition for research
- b) The fossil was found in pieces
- c) The fossil was partially destroyed
- d) The fossil was lost before analysis

24 Which statement is TRUE according to the text?

- a) The discovery had no impact on eco-tourism
- b) Wadi Al-Hitan is known for its ancient human fossils
- c) Basilosaurus isis was a top predator in a prehistoric sea
- d) The fossil was only 5 meters long

25 Why is Wadi Al-Hitan considered significant?

- a) It is a newly discovered site
- b) It is rich in ancient marine fossils
- c) It is a popular desert resort
- d) It is home to many modern whales

26 What is one benefit of the discovery mentioned in the passage?

- a) It reduced marine pollution
- b) It led to new technological developments
- c) It enhanced eco-tourism and conservation effort
- d) It replaced traditional fossil sites

27 What does the fossil discovery highlight about Earth's history?

- a) Earth has always been a desert
- b) Fossils have no scientific value
- c) Ancient species were mostly herbivores
- d) The planet has undergone dramatic change

- grab the reader's attention to read the essay
- support, explain, illustrate, or provide evidence for the idea expressed in the topic sentence
- analyze two points of view by either comparing them, contrasting them, or both

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Dr. Tahani Amer is an Egyptian-American aerospace engineer who works at NASA. Born in Egypt, she later moved to the United States, where she faced several challenges, including language barriers and the responsibility of raising children while continuing her studies. Despite these difficulties, she remained determined and committed to her goals. She eventually earned a PhD in mechanical engineering and began contributing significantly to space and aeronautics research.

At NASA, Dr. Amer works on advanced projects aimed at improving aircraft safety and efficiency. Her research focuses on developing innovative technologies that reduce noise and harmful emissions. In addition to her scientific work, she is passionate about inspiring young women—especially from Arab and Muslim backgrounds—to pursue careers in science, technology, engineering, and mathematics (STEM).

Dr. Amer believes her success is rooted in her faith, perseverance, and strong family support. She emphasizes the importance of education and persistence in achieving one's dreams. Her journey demonstrates that obstacles can be overcome with hard work and determination. Today, she is recognized as a role model who continues to inspire future generations of scientists and engineers around the world.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main idea of the passage?**

- a) NASA's recent discoveries
- b) The life and achievements of Dr. Tahani Amer
- c) The challenges of moving to a new country
- d) The development of space technology

CamScanner

13 **Which of the following best describes Dr. Amer's personality?**

(a) determined (b) careless (c) doubtful (d) impatient

14 **Dr. Amer earned her PhD in:**

(a) Aerospace science
(b) Civil engineering
(c) Mechanical engineering
(d) Physics

15 **The phrase "never gave up on her dreams" is closest in meaning to:**

(a) ignored her goals
(b) changed her plans
(c) forgot her ambitions
(d) remained determined

16 **What does the word "she" in paragraph 1 refer to?**

(a) NASA (b) the United States (c) Dr. Tahani Amer (d) her family

17 **Which statement is CORRECT according to the passage?**

(a) She works on improving aircraft technology
(b) She focused only on teaching
(c) She worked as a pilot
(d) She avoided challenges

18 **Which statement is INCORRECT?**

(a) She faced language barriers
(b) She raised children while studying
(c) She gave up her education
(d) She encourages young women in STEM

19 **Which of the following is the best title for the passage?**

(a) Life at NASA
(b) A Journey of Determination and Success
(c) The History of Aerospace Engineering
(d) Studying in the United States

CamScanner

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Hedy Lamarr was more than a glamorous Hollywood star—she was also a remarkable inventor. Born in Austria in 1914, Lamarr gained fame for her film roles during the 1930s and 1940s. Yet, her most significant achievements came not from acting, but from her inventive genius. During World War II, Lamarr grew concerned about the dangers posed by enemy ships and submarines. Together with composer George Antheil, she created a frequency-hopping communication system designed to guide torpedoes without detection or interference. Although the U.S. Navy did not implement the system during the war, it later became the basis for modern technologies such as Wi-Fi, Bluetooth, and GPS.

Even though her invention was initially overlooked, Lamarr's curiosity never waned. She once remarked, "The brains of people are more interesting than the looks, I think." Recognition for her scientific contributions came decades later, when in 1997, Lamarr and Antheil were honored by the Electronic Frontier Foundation.

Today, Hedy Lamarr is celebrated not only as a Hollywood icon but also as an inspiring figure for women in science and technology. Her life demonstrates that true talent can manifest in multiple ways, and that one individual can leave a lasting impact both on-screen and in the world of innovation.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the text?**

- (a) Hedy Lamarr was a famous actress with no other talents.
- (b) Hedy Lamarr only gained recognition in the 1930s.
- (c) Hedy Lamarr's films were more important than her inventions.
- (d) Hedy Lamarr was both a Hollywood star and an innovative inventor.

21 **The best title could be .....**

- (a) "Hedy Lamarr: A Hollywood Star"
- (b) "Hedy Lamarr: Beauty and Brains"
- (c) "The Life of Austrian Actresses"
- (d) "Famous Films of the 1930s"

22 **The word "<u>inventive</u>" in the first paragraph is closest in meaning to:**

- (a) creative
- (b) ordinary
- (c) glamorous
- (d) unskilled

23 **In the sentence, "Her most significant achievements came not from acting, but from her inventive genius," the word "significant" refers to:**

- (a) unimportant
- (b) meaningful and important
- (c) glamorous
- (d) creative

CamScanner

24 **It can be inferred from the text that:**

- The U.S. Navy immediately used Lamarr's invention during WWII.
- Lamarr was only interested in acting and ignored science.
- Lamarr's invention influenced technologies like Wi-Fi and GPS.
- Lamarr worked alone on her frequency-hopping system.

25 **Which statement is CORRECT according to the text?**

- Lamarr received recognition for her inventions during WWII.
- Lamarr and George Antheil created a system to guide torpedoes.
- Lamarr believed looks were more important than intelligence.
- Lamarr's inventions had no impact on modern technology.

26 **Which statement is INCORRECT?**

- Lamarr's curiosity continued despite her invention being ignored.
- Lamarr was honored by the Electronic Frontier Foundation in 1997.
- Lamarr's only contribution to society was her film career.
- Lamarr's life inspires women in science and technology.

27 **Summary of the second paragraph (World War II inventions):**

- Lamarr and Antheil developed a frequency-hopping system to protect torpedoes from being jammed
- Lamarr acted in films during WWII..
- Lamarr's invention was immediately used by the Navy.
- Lamarr focused on inventing household appliances.

Reading Comprehension 1

Read the following passage, then choose the correct answer from a, b, c or d:

In a quiet fishing village by the sea, there lived a fisherman named Tariq. Known for his modest lifestyle and warm smile, Tariq was respected by all for his unwavering honesty. Each morning, he would take his small boat out to the sea, catching just enough fish to feed his family and sell at the market.

One day, as Tariq pulled up his fishing net, he found a glittering chest tangled in the ropes. When he opened it, his eyes widened at the sight of gold coins and jewels. The treasure could change his life forever. However, he knew the chest must belong to someone in the village.

Instead of keeping it, Tariq brought the chest to the village chief. The chief announced that whoever had lost it should come forward and describe <u>its</u> contents. Soon, an old merchant, who had recently lost his wealth during a storm, accurately described the chest. The chief returned the treasure to him.

In gratitude, the merchant rewarded Tariq with enough money to repair his old boat and provide for his family. But more importantly, Tariq's honesty strengthened the trust and respect of his community. People felt safe and valued, knowing they lived among someone so genuine.

Tariq's story became a lesson for all—honesty not only builds trust but also nurtures lasting and meaningful relationships.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main message of the story?

(a) Wealth is the most important thing in life
(b) Honesty leads to trust and strong relationships
(c) Keeping secrets can lead to happiness
(d) Taking risks always pays off

13 Which statement is TRUE according to the story?

(a) Tariq sold the treasure at the market
(b) The village chief punished Tariq for being honest
(c) The old merchant was grateful to Tariq
(d) Tariq was a wealthy fisherman

14 Which statement is UNTRUE according to the story?

(a) Tariq'shonestybuilttrustinthecommunity
(b) The merchant rewarded Tariq with wealth
(c) The village valued honesty as an important trait
(d) Tariq hid the treasure in his boat

15 The pronoun "its" in the sentence "describe its contents" refers to:

(a) The boat
(b) The chest
(c) The sea
(d) The market

16 Why did the old merchant reward Tariq?

(a) To show appreciation for Tariq's honesty
(b) To gain more wealth
(c) Because the chief told him to do so
(d) To encourage others to find treasure

CamScanner

Exam.17

17 **What quality made Tariq respected in his village?**

- (a) His fishing skills
- (b) His honesty and integrity
- (c) His wealth and power
- (d) His ability to keep secrets

18 **What lesson can we learn from the story?**

- (a) Greed is necessary for success
- (b) Keeping secrets is always better
- (c) Only wealth can bring happiness
- (d) Honesty helps build strong and trustworthy relationships

19 **Which of the following best summarizes the story?**

- (a) Tariq's honesty earned him respect and a reward
- (b) Tariq found treasure and kept it for himself
- (c) The village chief kept the treasure for himself
- (d) The old merchant refused to reward Tariq

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Movies have a powerful influence on both individuals and society. <u>They</u> can evoke strong emotions, shape perspectives, and even influence behavior. A well-crafted film has the ability to inspire audiences, raise awareness about important social issues, and contribute to the development of cultural values. For instance, historical dramas can educate viewers about significant past events, while science fiction films often spark curiosity and imagination about the future.

One major way films impact viewers is through emotional engagement. A moving scene can create empathy and compassion, while an action-packed sequence can generate excitement and suspense. Psychological research suggests that emotionally engaging films can affect a person's mood in the short term and may even influence attitudes over time.

In addition, films play a role in shaping beliefs and perceptions. A documentary on climate change may encourage individuals to adopt environmentally friendly habits, while stories of determination can motivate people to pursue their goals. However, films can also spread stereotypes or misinformation, which makes critical thinking essential when interpreting their messages.

Ultimately, the effect of a film depends on the viewer's mindset, experiences, and the film's content. Whether for entertainment or education, movies can leave lasting impressions on both individuals and society.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

- (a) Movies are only a source of entertainment
- (b) Movies have little effect on society
- (c) Movies influence individuals and society in various ways
- (d) Movies are mainly educational tools

21 **Which of the following is the best title for the passage?**

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Genetic engineering is a revolutionary field of science that involves modifying an organism's DNA to achieve desired traits. Scientists use this technology to enhance agricultural crops, develop medical treatments, and even combat genetic disorders. By altering genetic material, researchers can create disease-resistant plants, improve food production, and advance gene therapy for human health.

One of the major advantages of genetic engineering is its potential to cure hereditary diseases. Through gene editing techniques like CRISPR, scientists can correct genetic mutations that cause conditions such as cystic fibrosis and sickle cell anemia. Additionally, genetically modified crops can withstand harsh environmental conditions, ensuring food security for a growing global population.

Despite its benefits, genetic engineering raises ethical and safety concerns. Many people worry about the long-term effects of genetically modified organisms (GMOs) on human health and the environment. There is also a debate over the moral implications of altering human DNA, particularly when it comes to designer babies. Critics argue that genetic modifications could lead to unforeseen consequences, while supporters believe it is a vital tool for scientific progress.

As research continues, scientists and policymakers must carefully balance the advantages and risks of genetic engineering. By implementing strict regulations and ethical guidelines, society can harness this technology responsibly, ensuring that it benefits humanity without causing harm.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is one of the main applications of genetic engineering?

(a) Increasing air pollution
(b) Enhancing disease-resistant crops
(c) Reducing the use of renewable energy
(d) Limiting scientific research

13 The word "hereditary" in the passage is closest in meaning to .....

(a) Inherited (b) Temporary (c) Artificial (d) Unrelated

14 Which of the following is a concern related to genetic engineering?

(a) The inability to modify genes
(b) Ethical issues surrounding DNA alteration
(c) The increase in fossil fuel consumption
(d) A lack of medical applications

15 The phrase "gene editing" in the passage refers to .....

(a) Using technology to change DNA sequences
(b) Removing all genes from an organism
(c) Preventing genetic research
(d) Replacing fossil fuels with new energy sources

16 What is one potential benefit of genetic engineering in medicine?

(a) Creating new fossil fuels
(b) Curing genetic disorders
(c) Reducing renewable energy sources
(d) Increasing pollution levels

- Opponents
- Supporters
- Scientists
- Researchers

19 **What is the most suitable title for the passage?**

- The Rise of Fossil Fuels
- The Impact of Genetic Engineering
- The History of Agriculture
- The Decline of Medical Science

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

When Lina moved to France as an exchange student, she was both excited and nervous. She had never been away from her family for such a long time, and living with a host family in a foreign country felt like stepping into the unknown. Her host family, the Martin family, welcomed her warmly, making her feel at home from the very first day.

At first, Lina struggled with the language barrier. Although she had studied French at school, using it in daily conversations was a completely new experience. The Martins were patient with her, often repeating words slowly and encouraging her to practice. Every evening at dinner, they asked about her day, and despite her limited vocabulary, Lina felt her confidence gradually improving.

One of Lina's favorite experiences was helping Mrs. Martin in the kitchen. She learned how to prepare traditional French dishes like ratatouille and crêpes. These moments not only improved her cooking skills but also strengthened her relationship with the host family. They laughed, shared stories, and exchanged recipes. Lina even introduced them to an Egyptian dish, koshari, which quickly became a favorite in the Martin household.

The experience was not without challenges. Lina missed her family, especially during special occasions. However, the Martins made a great effort to include her in their celebrations. During Christmas, they gave her a handmade ornament with her name on it, a gesture that deeply touched her.

By the end of her exchange program, Lina had not only improved her French but also gained a second family. She realized that home is not just a place, but the people who make you feel loved and accepted. Leaving France was bittersweet, but she knew she would always carry a part of the Martins' kindness with her.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

- Studying French is very difficult for students
- Living abroad is always easy and enjoyable
- An exchange student's experience of adapting to a new culture and gaining a second family

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Before the reign of Hatshepsut, very few women had ruled ancient Egypt. Hatshepsut, one of the most influential female leaders in Egyptian history, served as pharaoh from approximately 1479 BCE to 1458 BCE. Her rule, which lasted about 21 years, made her one of the longest-reigning female monarchs of the ancient world. During this period, she successfully restored trade relations with foreign regions that had previously declined due to continuous warfare.

Ancient temple carvings show Hatshepsut's ships traveling to the land of Punt, believed to be In present-day East Africa. These expeditions brought back valuable goods such as gold, precious stones, animal skins, and even trees, which were planted in Egypt. This represents the earliest recorded example of cultivating foreign trees outside their original land. The success of these journeys likely encouraged further trade with places like Byblos (modern Lebanon) and the Sinai Peninsula.

The wealth gained from trade allowed Hatshepsut to sponsor impressive building projects, leading to a time of stability and prosperity in Egypt. She constructed magnificent monuments, including the famous temple at Deir el-Bahri and structures at Beni Hasan, which are considered outstanding examples of ancient architecture. She also restored older monuments and promoted artistic development.

Many statues of Hatshepsut were created during her reign and are now displayed in museums around the world. These works reflect the artistic style of the Thutmoside period, named after her father, Thutmose I, and represent the elegance of classical Egyptian art.

Today, Hatshepsut's mummy and many artifacts related to her life can be seen at the National Museum of Egyptian Civilization.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main idea of the passage?

(a) The role of trade in modern Egypt
(b) The achievements and influence of Hatshepsut
(c) The history of Egyptian wars
(d) The geography of ancient Africa

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Mariam's parents were becoming increasingly concerned. Every evening, she would spend hours glued to her phone, scrolling through social media, playing games, or watching videos. At first, they thought it was just a temporary phase, but soon her school grades began to drop, and she stopped spending time with her family.
One day, her mother decided to enforce a new rule: no phone use after 8 PM. Mariam protested, saying her friends were always online and she didn't want to miss out. However, after a few days, a surprising change occurred—she began reading books again, helping with household chores, and even sleeping better.
During a weekend family picnic, Mariam noticed things she had ignored before: the blue sky, the songs of birds, and the simple joy of talking with her parents. She laughed more and felt more relaxed than she had in a long time.
By the end of the month, Mariam realized she didn't need to be on her phone constantly. She still used it, but she balanced it with other activities. Her grades improved, and she felt happier and more content. She finally understood that life wasn't only about staying connected online—it was about enjoying the real world around her.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **Why were Mariam's parents worried?**

- a) She spent too much time reading books
- b) She was always on her phone
- c) She didn't have enough friends
- d) She stopped using the internet

Reading Comprehension (1)

Read the following passage, then choose the correct answer from a, b, c or d:

In a small village, an elderly man named Mr. Salem earned his living by selling oranges. Although his income was very modest, he was widely known for his kind and generous nature. One day, he heard about a nearby town that had been struck by a severe storm, leaving many families homeless and without food.
Deeply touched by their suffering, Mr. Salem decided to take action. Instead of selling his oranges to provide for himself, he collected all the oranges he had and donated them to a local relief center. He believed that even the smallest act of kindness could bring comfort and hope to those in need.
When people learned about his selfless act, they were deeply moved. His story spread quickly, encouraging many others to contribute whatever they could. Despite his poverty, Mr. Salem felt a great sense of happiness and fulfillment. He realized that the joy of giving far outweighed the hardship of earning.
His simple gesture proved that true generosity does not depend on wealth but comes from the heart. To those who received them, the oranges were not just food—they were a symbol of hope and compassion.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What is the main theme of the story?**

(a) How to sell oranges in a small village
(b) The power of kindness and giving
(c) The history of natural disasters
(d) The importance of saving money

13 **What was the result of Mr. Salem's donation?**

(a) He became very wealthy
(b) His story inspired others to help
(c) He lost his business
(d) No one noticed his action

14 **The oranges in the story are a symbol of _____.**

(a) Expensive luxury items
(b) A successful business idea
(c) Hope and kindness
(d) A healthy lifestyle

15 **What is a synonym for "selfless" as used in the story?**

(a) Greedy (b) Generous (c) Proud (d) Lazy

16 **Why did Mr. Salem donate his oranges?**

(a) They were about to spoil
(b) He wanted public attention
(c) He felt sympathy for the affected families
(d) He was ordered to do so

17 **What does the story teach us about generosity?**

(a) Only wealthy people can help others
(b) It comes from the heart, not from wealth
(c) It helps people earn more money
(d) It should be done only when convenient

CamScanner

18 **What would likely have happened if Mr. Salem had kept the oranges?**

- The town would recover faster
- Fewer people would feel inspired to help
- He would become rich
- The storm would end sooner

19 **What is the most suitable title for the story?**

- The Greedy Merchant
- A Small Act, a Big Difference
- Growing Oranges Successfully
- The Storm's Destruction

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Honey, a viscous and natural sweetener synthesized by bees, has been esteemed for millennia, not merely for its palatable flavor but for its profound medicinal properties. From ancient holistic remedies to contemporary wellness regimes, honey remains a cornerstone for those seeking organic health solutions.

One of the cardinal benefits of honey is its dense concentration of antioxidants. These compounds are instrumental in neutralizing free radicals, thereby mitigating the risk of chronic ailments and bolstering general immunity. Furthermore, honey exhibits potent antibacterial and anti-inflammatory characteristics, serving as an effective domestic treatment for soothing pharyngeal irritation and accelerating the cicatrization (healing) of minor wounds.

Beyond topical applications, honey is renowned for its role in gastrointestinal wellness. A singular spoonful can soothe dyspepsia and nourish the gut's microbiome. Preliminary research even indicates its efficacy in alleviating the discomfort associated with acid reflux.

For those with an active lifestyle, honey serves as a superior alternative to refined sugars. It facilitates a gradual and sustained release of glucose, providing enduring energy rather than a transient spike. However, moderation is paramount; due to its caloric density and sugar content, individuals with metabolic conditions, such as diabetes, should seek professional medical counsel before integrating it into their daily sustenance.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the overarching theme of the passage?**

- The intricate process of honey production by bees.
- The diverse therapeutic and nutritional advantages of honey
- A historical survey of ancient beekeeping techniques.
- The environmental impact of honey harvesting.

21 **The word "alleviate" in the third paragraph is a synonym for _____.**

- exacerbate
- facilitate
- relieve
- intensify

22 **According to the text, which statement is TRUE regarding honey?**

- It is a calorie-free alternative to artificial sweeteners.
- Its use is exclusively restricted to cosmetic skincare.
- It is considered hazardous when applied to minor skin abrasions
- It possesses properties that fight bacteria and reduce swelling

23 **Which statement is UNTRUE according to the provided information?**

- Honey causes a rapid, short-lived surge in energy levels.
- It can be utilized to soothe a painful or irritated throat.
- It has been suggested as a potential remedy for acid reflux.
- It contains substances that help protect the body's cells.

- d) focus only on the conclusion

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Living and working in space may seem thrilling, but it comes with serious mental health challenges. Astronauts spend months away from family and friends, confined to small spaces with the same crew every day. Such conditions can significantly affect emotional well-being.

In 1982, Russian astronaut Valentin Lebedev experienced depression after seven months in orbit. His experience highlighted the importance of addressing mental health in astronauts, who must perform complex, high-risk tasks.

One major challenge is the disruption of natural time. On the International Space Station (ISS), astronauts witness 16 sunrises and sunsets in just one Earth day. This confusion of day and night, combined with blue artificial lighting on board, can interfere with sleep and increase mental fatigue.

As missions become longer—such as future trips to Mars lasting 18 months or more—psychological challenges are expected to grow. Astronauts now undergo special training to manage stress and maintain emotional resilience. On the ISS, they follow routines that include regular exercise, healthy eating, relaxation techniques, and video calls with loved ones to support mental health.

Ultimately, as space travel becomes more ambitious, ensuring astronauts' mental well-being will be as important as protecting their physical safety.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **The main idea of the first paragraph is _____.**

- a) different mental health problems
- b) space exploration
- c) the conditions astronauts face in space
- d) the depression of a Russian astronaut

13 **Due to the disruption of time in space, _____.**

- a) many astronauts suffer from heart diseases
- b) astronauts face several difficulties
- c) all astronauts refuse to travel to space
- d) astronauts find it easy to sleep

14 **People who want to become astronauts must _____.**

- a) take their families with them
- b) shorten space journeys
- c) ignore mental health issues
- d) learn how to cope with stress

15 **The word "conditions" in the first paragraph is closest in meaning to _____.**

- a) terms
- b) results
- c) causes
- d) circumstances

CamScanner

16 **The word "This" in the second paragraph refers to _____.**

- the International Space Station
- blue light
- the disruption of time
- moonlight

17 **Future astronauts will likely face more _____ than those in the past.**

- difficulties
- facilities
- time differences
- advantages

18 **In the future, mental health challenges for astronauts are expected to be _____.**

- greater
- fewer
- less
- the same

19 **According to the passage, what helps astronauts maintain good mental health on the ISS?**

- sleeping more during the day
- working continuously without rest
- exercising, eating well, and staying in touch with family
- avoiding communication with Earth

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

In the cozy village of Willowbrook, there was a small bakery famous for its delicious pastries. The owner, Mr. Thompson, devoted himself to creating artisan breads and exquisite cakes every day. Yet he had an unusual helper—a clever little mouse named Pip. Unlike other mice, Pip was not interested in stealing food; instead, he was fascinated by Mr. Thompson's baking and spent hours watching and trying to imitate his techniques.
One evening, Mr. Thompson retired early, leaving a large order unfinished. Pip noticed the problem and decided to help. He carefully measured the flour, sugar, and eggs, kneaded the dough, and tended the oven with precision. By morning, the bakery was filled with the scent of perfectly baked pastries. Mr. Thompson was amazed to see his counter full of flawless goods.
His initial surprise turned into admiration, and he officially made Pip his apprentice. From that day on, the bakery became even more popular. While the villagers speculated about the "secret ingredient," the truth was a unique friendship built on dedication, trust, and a touch of magic.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main theme of the story?**

- Passion and teamwork can lead to outstanding results
- Magic is more important than skill
- Animals are better at baking than humans
- Deception helps achieve business goals

21 **A synonym for "devoted" as used in the story is:**

- Lazy

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

In recent years, sustainable fashion has garnered significant global attention as a critical mass of consumers becomes cognizant of the environmental and socio-economic footprints of the garment industry. Traditional "fast fashion" paradigms frequently contribute to systemic pollution and waste, often predicated on the exploitation of labor in regions with negligible legal protections. Conversely, sustainable fashion prioritizes ecological preservation and the ethical treatment of the global workforce.

Brands championing this movement emphasize the utilization of biodegradable or recycled materials, ethical labor practices, and carbon-neutral production methodologies. Consumers are increasingly discerning, opting for organic textiles and garments treated with minimal chemical agents. The objective transcends mere aesthetics; it is an endeavor to synthesize style with planetary stewardship.

Central to this shift is the concept of "slow fashion," which advocates for the acquisition of high-quality, durable pieces over the pursuit of transient trends. This philosophy challenges the conventional ethos of hyper-consumption. Despite its ascendancy, the movement faces structural hurdles, such as inflated production costs and the limited availability of raw sustainable resources. Nevertheless, as demand intensifies, the industry is progressively adapting, proving that sustainability is no longer a niche trend but a foundational shift in global commerce.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the overarching theme of the text?

- The historical timeline of textile manufacturing.
- The detrimental effects of high-end luxury brands.
- The rise and principles of the sustainable fashion movement.
- The economic decline of traditional shopping malls.

13 Within the context of the passage, "slow fashion" denotes _____.

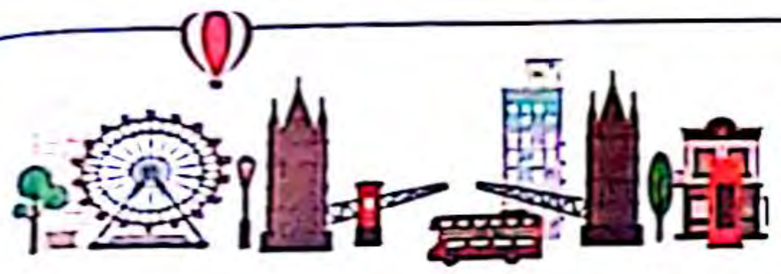
- A delay in the shipping and delivery of online orders.
- Prioritizing the purchase of durable, timeless, and ethical clothing.
- A method of manufacturing clothes using ancient hand-tools.
- The seasonal reduction in clothing prices.

14 According to the text, what is a primary obstacle currently facing the industry?

- A lack of consumer interest in eco-friendly products.
- Financial challenges related to higher manufacturing expenses.
- The over-abundance of organic raw materials.
- A total absence of labor laws in developed nations.

15 The term "exploitation" in the first paragraph specifically refers to _____.

- The strategic marketing of eco-friendly materials.
- The depletion of non-renewable natural resources.
- The unfair treatment of workers for commercial gain.
- The chemical enhancement of synthetic fabrics.



CamScanner

16 What are modern consumers increasingly prioritizing?

- The speed at which new trends reach the stores
- The environmental and ethical consequences of their purchases
- Finding the lowest possible price regardless of quality
- The convenience of disposable "single-use" garments.

17 What is the primary objective of this passage?

- To advocate for sustainable practices and highlight their significance.
- To persuade readers to stop buying clothes entirely.
- To celebrate the massive profits of the fast-fashion industry
- To provide a technical manual on how to recycle old fabric

18 To which literary genre does this text belong?

- Narrative Fiction
- Descriptive Poetry
- Informative/Expository Article
- Critical Book Review

19 Which of the following serves as the most appropriate title?

- Fast Fashion: The Secret to Style
- Sustainable Fashion: Beyond the Trend
- The History of the Silk Road
- Why Expensive Clothes Last Longer

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Lina lived in a quiet village where everyone knew one another. One afternoon, as she walked home from school, she noticed litter scattered across the community garden. Some children were playing nearby, ignoring the mess. Lina frowned. She loved her village, and seeing it dirty made her sad.

Instead of walking away, Lina decided to take action. She picked up the trash and threw it in the nearest bin. As she was cleaning, an elderly woman approached her. "You're a wonderful young person," the woman said with a smile. "People often complain, but few actually do something about it."

Lina didn't stop there. She spoke to her teacher about organizing a village clean-up. Soon, many students and parents joined the initiative. They cleaned the garden, planted flowers, and even made signs reminding people to keep the village tidy.

Her efforts didn't go unnoticed. The village council praised the students and encouraged more community projects. Lina felt proud—not for the recognition, but because she made a difference. She realized that being a good citizen wasn't just about following rules, it was about taking responsibility and inspiring others to do the same.

From that day on, Lina continued to find ways to help her village. Whether it was respecting others, following laws, or lending a hand, she knew that even small actions could create a big impact.

Choose the correct answer from a, b, c or d: (1 mark each)

20 What is the main idea of the passage?

- The importance of winning awards in school
- How one person's actions can inspire positive community change
- The daily routine of village children
- How to plant flowers in a garden

CamScanner

21 Why did Lina frown when she saw the community garden?

- (A) She didn't like children playing there
- (B) She wanted to go home quickly
- (C) She was sad to see litter scattered around
- (D) She thought the flowers were ugly

22 What action did Lina take first to improve the garden?

- (A) She told her friends to play elsewhere
- (B) She called the village council
- (C) She picked up trash and put it in the bin
- (D) She planted flowers

23 What is the meaning of "didn't go unnoticed" in the text?

- (A) No one saw what happened
- (B) Lina forgot what she did
- (C) People noticed and appreciated the efforts
- (D) The flowers did not grow

24 Who encouraged more community projects after the clean-up?

- (A) The elderly woman
- (B) The village council
- (C) Lina's teacher
- (D) The children playing in the garden

25 Which of the following best describes Lina's attitude toward her village?

- (A) Careless and indifferent
- (B) Jealous and competitive
- (C) Concerned and responsible
- (D) Confused and distracted

26 What lesson can be inferred from Lina's actions?

- (A) Following rules is more important than helping others
- (B) Small actions can lead to meaningful change in the community
- (C) Only adults should organize clean-ups
- (D) Playing outside is more important than helping the environment

27 Which title best fits this passage?

- (A) Lina and the Village Clean-Up
- (B) Children Playing in the Park
- (C) The Flowers of the Garden
- (D) How to Plant a Garden

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Amani Safwat is a remarkable Egyptian mechanical engineer who is making a name for herself in the world of motorsports. After earning her degree in Mechanical Engineering, she joined Mahindra Racing, a team well known for its participation in Formula E—the electric version of Formula 1 racing. Her role as a car engineer is both challenging and rewarding. She is responsible for preparing racing cars for competitions, ensuring that every component performs at its highest level. This requires a deep understanding of automotive systems, strong attention to detail, and excellent teamwork skills.

What makes Amani's story especially inspiring is her contribution to the development of electric-powered racing cars. As the world moves toward cleaner energy, her work supports innovation in the automotive industry. Electric racing is not only environmentally friendly but also provides opportunities for testing and improving new technologies. Amani has played a key role in this transformation.

Although motorsports is a male-dominated field, Amani has broken stereotypes and proved that determination and skill matter more than gender. She serves as a role model for young women in engineering, especially in the Arab world. Her achievements demonstrate that with passion and persistence, anything is possible.

Amani's journey is a powerful example of how engineers can shape the future. Through her dedication and creativity, she contributes to both her country's reputation and the global movement toward sustainability. Her story reminds us that true success comes from combining talent with purpose.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main idea of the passage?

- The challenges of working in motorsports
- The importance of electric cars in racing
- The history of Formula E racing
- Amani Safwat's achievements and impact as an engineer

13 Why is Amani's work considered important today?

- Because it focuses on traditional racing methods
- Because it supports the shift toward cleaner energy
- Because it reduces the cost of racing cars
- Because it replaces engineers with technology

14 What can be inferred about Amani Safwat?

- She prefers working alone
- She avoided challenges in her career
- She succeeded despite difficulties in a male-dominated field
- She is more interested in business than engineering

15 According to the passage, what is one of Amani's responsibilities?

- Managing the racing team
- Preparing cars for races
- Designing race tracks
- Training new drivers

16 The word "innovation" in the passage is closest in meaning to .....

- creativity
- danger
- failure
- tradition

CamScanner

17 **What does the pronoun "its" in the first paragraph refer to?**

- a) The racing team
- b) Amani Safwat
- c) The automotive industry
- d) A young engineer

18 **What is the writer's purpose in writing this passage?**

- a) To criticize motorsports
- b) To describe how races are organized
- c) To inform and inspire readers through Amani's story
- d) To compare different types of racing

19 **The tone of the passage is best described as .....**

- a) humorous
- b) critical
- c) inspirational
- d) negative

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Public transportation is a cornerstone of modern urban living, providing an efficient, affordable, and sustainable mode of travel. Systems such as buses, trains, trams, and subways play a vital role in reducing traffic congestion and limiting urban pollution. By encouraging people to use public transport instead of private cars, cities can significantly decrease greenhouse gas emissions and improve air quality.

One of the main advantages of public transportation is its economical nature. For many people, it is far more cost-effective than owning a private car, as it eliminates expenses such as fuel, parking, and maintenance. In addition, public transport can save time in crowded cities, especially when special lanes allow vehicles to avoid heavy traffic.

Public transportation also promotes social inclusion. It provides essential mobility for individuals who cannot drive, such as the elderly, students, and people with disabilities. This ensures equal access to education, healthcare, and job opportunities.

However, maintaining an efficient system requires continuous investment. Problems such as overcrowding, outdated infrastructure, and delays may discourage people from using public transport. Therefore, authorities must focus on upgrading systems, using modern technologies, and improving connections between different modes of transport.

In conclusion, strong public transportation systems are essential for building sustainable and high-quality urban environments.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

- a) The history of transportation systems
- b) The benefits and challenges of public transportation
- c) The importance of private cars
- d) The development of rural areas

In the "hook" of a blog post, the writer tries to _____.

- (a) spark the reader's curiosity
- (b) ignore the reader's attention
- (c) avoid sharing personal experiences
- (d) make the topic longer

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Omar's grandfather had always told him stories about ancient Egypt, but nothing fascinated him more than the legend of the scarab amulet. According to the tale, the scarab was a symbol of protection and good luck. One afternoon, while exploring his grandfather's old study, Omar discovered a small wooden box. Inside, wrapped in a piece of faded cloth, was a golden scarab amulet.

Curious, Omar wore it around his neck. That evening, strange things began to happen. His bad luck seemed to disappear—he found his missing homework, aced a surprise quiz, and even made a new friend. He couldn't believe it. Was the amulet truly magical?

Excited, he told his grandfather, who simply smiled. "The scarab doesn't bring magic," he said. "It reminds you to believe in yourself. When you wear it, you feel confident, and that's what brings good fortune."

Omar realized his grandfather was right. The amulet wasn't magical, but it had given him the confidence to face challenges. From that day on, he no longer needed the scarab to feel strong—he carried its lesson in his heart instead.

Choose the correct answer from a, b, c or d: (1 mark each)

12 **What did Omar find in his grandfather's study?**

- (a) A golden ring
- (b) A scarab amulet
- (c) An ancient book
- (d) A mysterious map

13 **What was the scarab amulet believed to do?**

- (a) Grant wishes
- (b) Control time
- (c) Make people invisible
- (d) Bring protection and good luck

14 **What happened after Omar wore the amulet?**

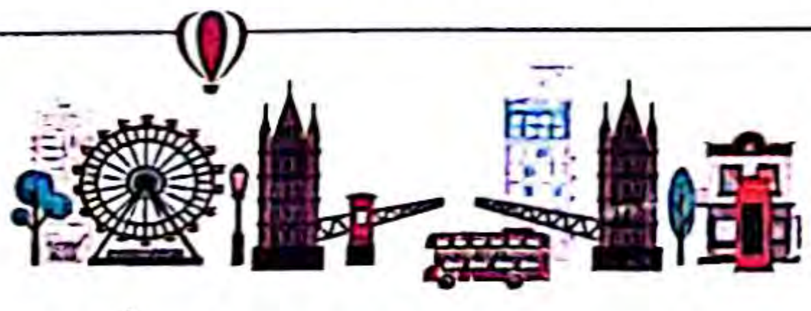
- (a) His luck improved
- (b) He lost his homework
- (c) He failed a quiz
- (d) He became afraid of the amulet

15 **How did Omar's grandfather explain the amulet's power?**

- (a) It had real magic inside
- (b) It reminded people to believe in themselves
- (c) It could change the past
- (d) It only worked at night

16 **What lesson did Omar learn?**

- (a) The amulet had no real power, but confidence did
- (b) Only ancient objects could bring luck
- (c) He should always wear the scarab
- (d) Magic exists in real life



CamScanner

17 **Why did Omar stop relying on the amulet?**

- (a) It broke
- (b) He lost it
- (c) He realized that confidence, not magic made a difference
- (d) His grandfather took it away

18 **How did Omar's attitude change?**

- (a) He became more confident
- (b) He ignored his grandfather's advice
- (c) He started believing in ghosts
- (d) He stopped studying

19 **What is the main message of the story?**

- (a) Amulets always bring good fortune
- (b) Luck comes from believing in yourself
- (c) Ancient Egypt was full of real magic
- (d) Magic objects control our future

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Egypt has recently embarked on a transformative journey in the field of transportation, aiming to integrate advanced technologies to improve efficiency, safety, and sustainability. One of the most significant developments is the construction of the electric monorail, which is expected to connect key areas of Cairo with the New Administrative Capital. This project will not only reduce traffic congestion but also contribute to a cleaner environment by lowering carbon emissions.
Another major innovation is the high-speed electric train linking Cairo, Alexandria, and other important cities. With speeds reaching up to 250 km/h, the train will significantly reduce travel time and strengthen economic connectivity across the country. In addition, smart traffic systems have been introduced in several cities, using artificial intelligence to manage traffic flow more efficiently and minimize delays.
These advancements are part of Egypt's broader vision to modernize its infrastructure and meet international standards. The adoption of high-tech transportation solutions is expected to boost tourism, support economic growth, and improve the overall quality of life for Egyptian citizens.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **What is the main idea of the passage?**

- (a) Egypt's efforts to modernize transportation using advanced technology
- (b) The challenges of building new cities
- (c) The history of transportation in Egypt
- (d) The importance of tourism in Egypt

21 **What is one benefit of the electric monorail mentioned in the text?**

- (a) It increases fuel consumption
- (b) It replaces all other transport systems
- (c) It reduces traffic congestion
- (d) It is cheaper than buses

CamScanner

17 **Why did Omar stop relying on the amulet?**

According to the passage, the high-speed train will:

- connect only rural areas
- travel at very slow speeds
- reduce travel time between cities
- replace airplanes completely

The word "optimize" in the passage is closest in meaning to:

- improve
- stop
- damage
- ignore

What can be inferred about smart traffic systems?

- They make traffic more complicated
- They use technology to improve traffic flow
- They increase delays in cities
- They are only used in rural areas

Why is Egypt adopting high-tech transportation solutions?

- To reduce population growth
- To reduce the number of cities
- To eliminate all traditional transport
- To modernize infrastructure and meet global standard

What is the writer's purpose in this passage?

- To criticize transportation projects
- To inform readers about modern transportation developments in Egypt
- To compare Egypt with other countries
- describe daily traffic problems

The tone of the passage is best described as:

- negative
- humorous
- informative and optimistic
- confusing

Grammar

Choose the correct answer from a, b, c or d: (2 marks each)

He can't stand _____ in long queues.

- wait
- to wait
- waiting
- what

London, _____ is one of the most famous cities in the world, attracts millions of tourists.

- that
- which
- where
- a week ago

Which sentence is grammatically correct?

- It's quite a cold today.
- It's a quite cold today.
- It's quite coldly today.
- It's quite cold today.

When the bus plunged off the bridge, it was the _____ experience of my life.

- most shocking
- shocking
- more shocking
- less shocking

   - c) atmosphere
   - d) clumsiness

2. The ancient temple was considered _____, and people from all over the world visited it for worship.
   - a) sacred
   - b) scared
   - c) public
   - d) commercial

3. The old man is still _____ and healthy despite his age.
   - a) a living
   - b) lively
   - c) alive
   - d) live

4. A person's well-being refers to their _____.
   - a) physical and mental health
   - b) financial situation
   - c) social status
   - d) intelligence level

5. The word _____ refers to a long period during which there is very little business activity and many people are unemployed.
   - a) advancement
   - b) independence
   - c) renaissance
   - d) depression

6. The war lasted for a _____ before peace was restored.
   - a) decay
   - b) decade
   - c) decode
   - d) encode

7. The wonders of ancient civilizations still fascinate historians today. The word "wonders" is a synonym for _____.
   - a) marvels
   - b) failures
   - c) wanders
   - d) troubles

8. She adopted _____ unique approach to solving the problem.
   - a) a
   - b) an
   - c) the
   - d) no article

9. _____ you tried your hardest, you would have been promoted.
   - a) Had
   - b) Should
   - c) Were
   - d) If

10. What is the main function of a slash (/) in writing?
    - a) To join long sentences
    - b) To indicate a list
    - c) To represent alternatives or fractions
    - d) To show a quotation

11 Which sentence is most suitable for the conclusion of a paragraph?

(a) Overall, my trip to Japan was an unforgettable experience.
(b) Apart from the food, I was fascinated by the traditional culture.
(c) Have you ever dreamed of traveling the world?
(d) Today, I want to share my recent trip to Japan.

Reading Comprehension

Read the following passage, then choose the correct answer from a, b, c or d:

Plastic pollution has become a significant environmental issue, particularly in our oceans. Every year, millions of tons of plastic waste enter the seas, harming marine ecosystems and wildlife. Sea creatures such as turtles, fish, and seabirds often mistake plastic items for food, leading to ingestion that can be fatal. Additionally, plastic debris entangles marine animals, restricting their movement and sometimes causing severe injuries or death.
Microplastics, tiny plastic particles that result from the breakdown of larger items, pose another threat. These particles can be ingested by small marine organisms, entering the food chain and potentially impacting human health as well. Furthermore, plastic pollution disrupts coral reefs, which are vital for biodiversity and serve as a habitat for numerous marine species.
Addressing this issue requires global cooperation. Many countries are implementing bans on single-use plastics, promoting recycling, and encouraging alternatives like biodegradable materials. Awareness campaigns and clean-up initiatives are also playing a crucial role in mitigating the damage. By making small lifestyle changes, such as reducing plastic use and participating in clean-up efforts, individuals can contribute to preserving marine life and maintaining the balance of our ecosystems.

Choose the correct answer from a, b, c or d: (1 mark each)

12 What is the main topic of the text?

(a) Plastic pollution in oceans
(b) Fishing practices
(c) Climate change
(d) Marine transportation

13 How do plastic items harm marine animals?

(a) By providing food
(b) By causing infections
(c) By creating safe habitats
(d) By being mistaken for food

14 What are microplastics?

(a) Large plastic items
(b) Tiny plastic particles
(c) Natural ocean minerals
(d) Types of marine plants

15 Which of the following is NOT an effect of plastic pollution?

(a) Injuries to marine animals
(b) Coral reef disruption
(c) Improved water quality
(d) Ingestion of micro-plastics by small organisms

CamScanner

16 **What role do coral reefs play according to the text?**

- Reducing ocean acidity
- Serving as a habitat for marine species
- Increasing plastic production
- Filtering saltwater

17 **How can individuals help reduce plastic pollution?**

- By using more plastic items
- By participating in clean-up efforts
- By avoiding biodegradable products
- By increasing single-use plastics

18 **What type of approach is needed to address plastic pollution?**

- Individual-only efforts
- Global cooperation
- Ignoring the problem
- Local bans without awareness

19 **Which title would best suit the text?**

- The Benefits of Plastic Products
- The History of Marine Life
- Saving Marine Ecosystems
- The Dangers of Overfishing

Reading Comprehension (2)

Read the following passage, then choose the correct answer from a, b, c or d:

Noise pollution is an escalating global concern, particularly within densely populated urban centers. It is defined as the presence of unwanted or detrimental sounds that disrupt the equilibrium of the natural environment and the well-being of inhabitants. The primary catalysts for this phenomenon include heavy traffic, industrial machinery, construction activities, aviation, and even amplified music.

The physiological and psychological ramifications of continuous exposure are profound. On a physical level, chronic noise can lead to elevated stress, sleep deprivation, and permanent auditory damage. Scientific research has established a direct correlation between prolonged noise exposure and an increased risk of cardiovascular diseases, such as hypertension. Furthermore, noise pollution adversely affects mental health, manifesting as heightened anxiety and a diminished capacity for concentration.

Wildlife is equally vulnerable. Many species rely exclusively on acoustic signals for communication, navigation, and survival. Excessive anthropogenic (human-made) noise can disorient animals, interfering with their natural behaviors and potentially forcing them to abandon their habitats. Such displacement can have long-term consequences for local biodiversity.

To mitigate these risks, municipal authorities can implement more stringent regulations, including the integration of soundproofing in urban architecture and setting decibel limits on industrial emissions. Individually, we can contribute by adopting noise-reduction technologies and advocating for quieter, more serene communal spaces. Ultimately, collective action is essential to safeguard both human health and the delicate balance of our ecosystems.

Choose the correct answer from a, b, c or d: (1 mark each)

20 **According to the text, how is noise pollution defined?**

- A beneficial side effect of modern industrialgrowth
- Unwanted or harmful sounds that disrupt environmental balance
- A specific type of air pollution found in rural villages
- The natural sounds produced by wildlife in the forest

CamScanner

Which of the following is NOT identified as a source of noise pollution?

- Aviation and airplane engines
- Urban traffic and construction sites
- The presence of fresh, circulating air
- Industrial machinery and loud music

What are the potential physical health risks associated with noise pollution?

- Improved focus and higher energy levels
- Hearing loss and increased risk of heart disease
- Enhanced sleep quality and lower blood pressure
- Strengthening of the immune system over time

Which mental health challenge is specifically mentioned in the passage?

- Anxiety and a lack of concentration
- Enhanced memory and cognitive recall
- A sense of peace and emotional stability
- Increased creativity and artistic drive

How does excessive noise impact the animal kingdom?

- It facilitates more effective hunting and communication
- It leads to the disruption of natural survival behaviors
- It encourages species to grow and reproduce faster
- It has no significant impact on biodiversity

What strategy can cities use to address the problem of noise pollution?

- Expanding the number of construction sites in residential areas
- Encouraging factories to increase their production noise
- Eliminating all forms of public transportation
- Implementing stricter regulations and soundproofing requirements

What is a long-term physiological effect of noise on the human body?

- Cardiovascular issues such as high blood pressure
- Stronger auditory nerves and better hearing
- A significant reduction in daily stress levels
- Improved ability to sleep in loud environments

What role can individuals play in reducing noise pollution?

- Avoiding the use of noise-reducing technologies
- Increasing their personal noise production in public
- Advocating for quieter environments and being mindful
- Ignoring local government noise regulations
