## Introduction

The Ministry of Education and Technical Education recognizes the importance of empowering teachers with effective tools that elevate classroom performance, enhance the quality of education, and improve its outcomes. This is a real response to the voices of teachers, interacting with the feedback channels from the educational field, and meeting the needs of teachers for flexible and comprehensive educational tools that assist them in fulfilling their noble educational mission.

This book has been designed to serve as an integrated educational support for teachers, helping them in planning and executing their teaching tasks efficiently. It also facilitates continuous assessment processes. The content has been designed to offer diverse models of effective classroom performance and educational activities created based on an interactive methodology that enhances active learning. It contributes to a qualitative shift in teaching practices, clearly focusing on the student as the core of the educational process.

The book includes formative and diagnostic questions, as well as purposeful learning tasks that students can complete as homework, enhancing the integration of learning inside and outside the classroom and contributing to the sustainable construction of learning for students. These tools help develop critical and creative thinking, deepen understanding, and support and enhance student motivation, giving them a sense of achievement and excellence.

It also includes short weekly tests and periodic assessments, allowing teachers to measure the extent of learning outcomes and address learning gaps early, providing feedback on the initial results. The performances at the end of each month are concluded with immediate training sessions that help improve student performance. These assessments are gradual, taking into account individual differences and targeting various levels of cognitive development, within a framework of diversity, depth, and integration, preparing students for monthly tests efficiently.

This book is a true translation of the Ministry's directions to ease the burdens on parents, provide supporting educational content that enriches the classroom environment, and allow teachers more time for educational innovation and productive interaction with their students. It also forms an effective tool in supporting the Ministry's direction to enhance learning outcomes, achieving a real transformation in the learning environment—from memorization to understanding, from rote learning to application, and from passive reception to active participation.

When we place this work in the hands of teachers and students, we hope it will be a valuable contribution to improving academic performance, enhancing the quality of education, and becoming an additional cornerstone in building a generation that is aware and knowledgeable, equipped with the skills and competencies needed for success in a world that demands creativity and innovation. It aims to have a tangible impact in realizing an ambitious educational vision for the future of education in our beloved country.

Allah is the one sought for help, and He guides to the right path....

## Group (B):

Write a paragraph of about 110 words about:

"The role of sports in our life"

## Group (C):

Write a paragraph of about 110 words about:

An athlete you admire.

The athlete I admire most is the Egyptian judo champion, Mohamed Rashwan. He is one of the greatest athletes in the history of Egypt. He won many national and international medals during his successful career. However, I admire him not only for his strength and skill, but also for his amazing morals. In the 1984 Olympic Games in Los Angeles, he played against a Japanese champion who was injured. Rashwan refused to hit his opponent's injured leg because it was against his values and the true spirit of fair play. He lost the gold medal, but he won the respect of the whole world. He is a true role model.

Sports are very important for people of all ages. Both the young and the old can take part in games and activities that make life more active and fun. Regular exercise helps the body stay strong and keeps the mind fresh. Playing football, swimming, or even walking gives people more strength to do their daily tasks. Sport is not only good for physical health but also helps people meet friends and work as a team. Many people also enjoy watching sport together, which makes it a social activity.

Honesty is the most important quality a person can have in life. It means always telling the truth, even when it is hard. When you are honest, you feel good about yourself and have a clear mind. In our society, people respect and trust an honest person. For example, an honest student doesn't cheat in exams, and an honest worker does his job well. On the other hand, nobody likes a liar or wants to be his friend. If everyone is honest, our community will be a safe and happy place to live. Therefore, we should all try our best to be honest in our words and actions every day.

In hospitals, doctors and nurses work as a team to save patients. Teamwork teaches us how to respect others and listen to different opinions. It makes hard work much easier and saves a lot of time and effort. As the proverb says, "Many hands make light work."

Low cost holidays make camping attractive. But above all, you enjoy mobility. If you don't like a place or if it's too crowded, you can simply get up and go. On the contrary, you can stay as you like.

Camping provides you with a real change for everyday living. You get up earlier, go to bed earlier and develop a hearty appetite. Buying and selling is part of everyday activities. People used to do this long ago. But shopping habits changed a lot. In the past you could deal directly with a person. You could talk to the seller and even ask for advice about the best quality and price. When there was a problem, you could go to the shop and explain it. At that time, you could solve any problem at once. Buying and selling today depend on a lot of online activities. First, you must log on the internet and choose price, the quality and time of delivery. You must provide correct and clear information to get your product. When there is a problem, you must fill in a form describing it clearly. An online assistant will contact you. But it may take a long time to get a reply. The biggest problem is that some companies can't be reached easily because they may be far away from you or you don't know the exact address. To buy online, you must be careful about your personal information. You must keep it secret and deal with trusted online companies.

## Group (A):

"Wildlife Experts"

## Group (B):

Write a paragraph of about 110 words on the following topic:

"Arctic Animals"

## Group (C):

Write a paragraph of about 110 words on the following topic:

"Desert Animals"

Wildlife experts play a very important role in protecting our environment. They are scientists who study animals and their habitats in the wild. Their main job is to learn how animals live, eat, and adapt to their surroundings. Also, they work hard to protect endangered species from dying out. They monitor animal populations and track their movements using modern technology. Wildlife experts often travel to dangerous or remote places, like deep jungles or dry deserts, to do their research. By understanding how animals survive, these experts can help us find ways to save them and keep the balance of nature. We should all support their great efforts.

Arctic animals live in one of the coldest places on Earth. To survive in the freezing weather, they have amazing adaptations. For example, the polar bear has a thick layer of fat under its skin and heavy white fur to keep it warm and help it hide in the snow. Another amazing animal is the Arctic fox, which also changes its fur color to match the snow in winter. Also, some birds have thick feathers to protect them from the cold wind. These animals can find food even when the ground is completely frozen. Their ability to survive in such a harsh environment is truly fascinating.

Desert animals live in very hot and dry habitats, so they have special ways to survive. The most famous desert animal is the camel, which is called the "ship of the desert." Camels can live without water for a long time and store fat in their humps to use as energy. Other animals, like the fennec fox, have large ears to lose heat and stay cool. Many desert animals are nocturnal, which means they sleep during the hot day and only come out at night to hunt for food when it is cooler. These amazing adaptations help them live perfectly in such difficult conditions.

We can learn calm courage, making quick decisions under pressure, and remarkable leadership in facing dangers.

Nature is God's greatest gift to us, and we must work hard to protect it. First, we should stop cutting down trees because they clean the air and provide a home for many animals. Instead, we must plant more trees everywhere. Second, we need to reduce pollution by not throwing rubbish in rivers, seas, or streets. We should also recycle plastic, paper, and glass to keep our environment clean. Furthermore, using renewable energy, like solar and wind power, is very important to stop climate change. Finally, the government should build more nature reserves to protect endangered wildlife. If everyone does their part, we will keep our planet safe and beautiful for future generations.

Group (A):

Group (B):

Write a paragraph of about 120 words on the following topic:

"A journey to a nice country"

Group (C):

Write a paragraph of about 120 words on the following topic:

"A flight to London"

Last mid-year holiday, my family and I went on a wonderful trip to Aswan. We traveled by the sleeping train, which was a great and comfortable experience. When we arrived in the morning, the weather was warm and sunny. First, we visited the High Dam, which is a great project that protects Egypt from floods and gives us electricity. After that, we took a boat on the Nile to visit the beautiful Philae Temple. The scenery of the Nile was amazing. The people in Aswan are very kind, friendly, and welcoming. We bought some nice souvenirs from the local markets. It was an unforgettable trip, and I hope to visit Aswan again soon.

Last summer, I had the chance to travel to Japan with my family. It is a very beautiful country. The flight was long, but we were very excited. When we arrived in Tokyo, the capital city, we were amazed by the tall, modern buildings and the clean streets. The Japanese people are very polite, helpful, and always on time. We visited many interesting places, like traditional temples and beautiful gardens. We also tried some delicious traditional food, which was a new and nice experience for us. The transportation system there is fantastic, especially the fast trains. It was a wonderful journey, and we learned a lot about a new culture.

Traveling by plane is an exciting experience. Last month, my father had a business trip to London, and he took me with him. We went to Cairo International Airport early in the morning. After checking our bags, we waited in the departure lounge. When we got on the plane, the flight attendants welcomed us with a big smile. During the flight, I looked out of the window and saw the beautiful white clouds below us. It felt like we were flying over a sea of cotton. I watched a movie and had a delicious meal. After about five hours, the plane landed safely at the airport in London. I was very happy to finally visit this famous city.

3. Read the following passage and then answer the questions below:

Some people like going to the theatre while others prefer going to the cinema. Of course, both of them have their advantages and disadvantages. As we live in a huge city, we have five theatres. Three of our theatres open during the whole year. However, two are open in winter only.

A great advantage of theatres is that the plays are live and the audience has the opportunity to interact with the actors and actresses. However, the main disadvantage of going to the theatres in our city is that it is necessary to buy tickets in advance. Another disadvantage of the theatre is that it is more expensive than the cinema.

Today, there is a cinema in almost every town. One of the reasons for the popularity of the cinema is that it entertains all types of people, young and old. Because it is so popular, my friends and I go there every week. We prefer to be there on Tuesday because at the weekend, the cinema is too much crowded. At the cinema, we can watch a film on a big screen and sound system is clear.

Because it entertains all types of people, young and old, and it is in almost every town.

3. Ziad said to Ibrahim, "Do your exercises." (advised) → Ziad advised Ibrahim to do his exercises.

### 5. answer the following questions

1. What dangers can people face in the ocean?
2. How did the storm affect the companions' journey and what challenges did it present?
3. Does the sea symbolize freedom or danger in the story? Why?

They can face fierce sea animals (like giant squids), storms, crashing into rocks, or getting trapped under ice.

The storm made their escape in the small boat very dangerous. Waves crashed over them, and the wind threatened to damage their weak boat, leaving them exhausted and half-conscious.

### 6. Write a paragraph of about 120 words on the following topic:

"The importance of learning English"

Learning English is very important in our modern world.

First, it is the most spoken language internationally. If you speak English well, you can communicate easily with people from different countries. Second, English is the language of science, technology, and the internet. Most useful information online is written in English. Furthermore, learning English helps you find a good job because most big companies need employees who can speak it fluently. Also, when you travel abroad, English makes your trip much easier. Finally, reading English books and watching English movies helps you learn about other cultures. Therefore, we should all study English hard.

It symbolizes both. For Ned Land, the sea (inside the submarine) was a prison and danger, while reaching the shore meant freedom. For Nemo, the sea was his freedom from the land's cruelty.
